

2022/2023 SKI COLLECTION

K2 is the original American Ski and Snowboard Brand, founded in 1962 in Washington State. It started with a shop. A garage. A barn. An island. It started with an idea. It started with belief. It started with madness and mistakes. From a garage brand to a garage brand gone global. For now and always, K2 continues to thrive with innovation, craftsmanship, and commitment.

# MINDBENDER SKI TECH

## TORISON CONTROL DESIGN ONE PERFORMANCE STORY / TWO TECH SOLUTIONS

### TITANAL Y-BEAM

Titanal is placed directly over the edges in the forebody of the ski for predictable turn initiation. Underfoot the titanal spans the full width of the ski for maximum control and power transfer. In the tail we move mass away from the mount points increasing directional stability, resulting in consistent turn release.

### CARBON SPECTRAL BRAID

Spectral Braid™ is a first-of-its-kind variable-angle fiber reinforcement that allows for precision-tuned torsion and flex by altering the fiber orientation along the length of the ski. Skis with K2's Patented Spectral Braid™ have stability and control in spades while remaining extremely maneuverable.

# MINDBENDER 116C

The Mindbender 116C is built for those epic powder days that everyone dreams of while being able to handle any variable snow you encounter on the way to the stash. Strung up with our patented Spectral Braid technology and Powder Rocker profile, this surprisingly lightweight fat ski can run with the best of 'em, from effortless turns in the lightest snow to punching through that end-of-day chop.

**KEY FEATURES**  
Spectral Braid, Carbon Boost, Slantwall

<b>SIZES (CM):</b>	179, 186, 193
<b>DIMENSIONS (MM):</b>	143-116-133
<b>ROCKER:</b>	Powder Rocker
<b>RADIUS (M):</b>	22.9 @ 186
<b>CORE:</b>	Maple/Paulownia

# ALL-NEW MINDBENDER 108Ti

The Mindbender 108Ti delivers at any speed in any conditions. A mid-fat waist width, long turn radius, All-Terrain Rocker profile, and Titanal Y-Beam construction work together to create a stable, unflinching freeride ski that wants to be pushed. Whether the snow is soft, firm, chunky, or all of the above, you'll be ready to play through.

**KEY FEATURES**  
Ti Y-Beam

<b>SIZES (CM):</b>	172, 179, 186, 193
<b>DIMENSIONS (MM):</b>	137-108-125
<b>ROCKER:</b>	All-Terrain Rocker
<b>RADIUS (M):</b>	22.8 @ 186
<b>CORE:</b>	Fir/Aspen

# ALL-NEW MINDBENDER 99Ti

Quick edge to edge? Check. Surprising float in the soft stuff? Oh, you bet. The Mindbender 99Ti boasts the most well-rounded skill set among its peers thanks to a moderate waist width, Titanal Y-Beam construction, and our All-Terrain Rocker profile. Striking the perfect balance between agility and stability, this is the go-to ski for confident ripping all over the mountain.

**KEY FEATURES**  
Ti Y-Beam

<b>SIZES (CM):</b>	166, 172, 178, 184, 190
<b>DIMENSIONS (MM):</b>	134-99-120
<b>ROCKER:</b>	All-Terrain Rocker
<b>RADIUS (M):</b>	19.6 @ 184
<b>CORE:</b>	Aspen Veneer

# ALL-NEW MINDBENDER 89Ti

When soft snow is in short supply, turn to the Mindbender 89Ti. Although it's built with the same Titanal Y-Beam construction and All-Terrain Rocker profile as its other metal-reinforced Mindbender siblings, the 89Ti stands apart thanks to a narrower waist width. Resulting in a ski that has the precision edge hold you need to dominate the hardpack but is still wide enough for forays into the ungrooved.

**KEY FEATURES**  
Ti Y-Beam

<b>SIZES (CM):</b>	164, 170, 176, 182, 188
<b>DIMENSIONS (MM):</b>	130-89-114
<b>ROCKER:</b>	All-Terrain Rocker
<b>RADIUS (M):</b>	16.6 @ 182
<b>CORE:</b>	Aspen Veneer

# MINDBENDER 90C

Harnessing the same Spectral Braid technology featured in some of its wider brethren, the Mindbender 90C offers precise torsional rigidity with a high-energy vibe. Ideal for lighter skiers or those who don't need the stability and stiffness of a metal laminate ski, the Mindbender 90C's Aspen Veneer core and All-Terrain Rocker profile will deliver a fun, lively ride anywhere on the hill.

**KEY FEATURES**  
Spectral Braid, Carbon Boost, Slantwall

<b>SIZES (CM):</b>	156, 163, 170, 177
<b>DIMENSIONS (MM):</b>	127-90-113
<b>ROCKER:</b>	All-Terrain Rocker
<b>RADIUS (M):</b>	17.5 @ 177
<b>CORE:</b>	Aspen Veneer

# MINDBENDER 85

The Mindbender 85 is an ideal ski for breaking out beyond the groomers. Lightweight, forgiving, and intuitive, its design inspires confidence in intermediates looking to bring their improving skills to new parts of the mountain. Also available in shorter lengths for smaller skiers.

**KEY FEATURES**  
Slantwall

<b>SIZES (CM):</b>	156, 163, 170, 177
<b>DIMENSIONS (MM):</b>	130-85-113
<b>ROCKER:</b>	All-Terrain Rocker
<b>RADIUS (M):</b>	13.3 @ 170
<b>CORE:</b>	Aspen Veneer

# MINDBENDER 115C W

K2's female athletes led the way in perfecting this remarkably versatile powder crusher. We listened to specific feedback and accepted the challenge of delivering the fat ski they always wanted. We started with a lightweight Aspen Veneer core, then infused our Powder Rocker profile and Spectral Braid technology, all of which add up to a women's-specific ski that can take on anything from deep pow, wind buff, and chunder, and look damn good doing it.

## KEY FEATURES

Spectral Braid, Carbon Boost, Slantwall

<b>SIZES (CM):</b>	165, 172, 179
<b>DIMENSIONS (MM):</b>	140-115-129
<b>ROCKER:</b>	Powder Rocker
<b>RADIUS (M):</b>	20.4 @ 172
<b>CORE:</b>	Maple/Aspen

# MINDBENDER 106C W

Everyone needs a go-to ski that rips in every condition, and that's why we built the women's-specific Mindbender 106C W. Featuring a mid-fat waist, a lightweight Aspen Veneer wood core, and Spectral Braid technology, this ski is capable and nimble in variable snow, but when things get deep, lean in and hold on tight - you'll be in for one sweet ride.

## KEY FEATURES

Spectral Braid, Carbon Boost, Slantwall

<b>SIZES (CM):</b>	159, 167, 175
<b>DIMENSIONS (MM):</b>	139-106-124
<b>ROCKER:</b>	All-Terrain Rocker
<b>RADIUS (M):</b>	15 @ 167
<b>CORE:</b>	Aspen Veneer

# ALL-NEW MINDBENDER 99Ti W

The Mindbender 99Ti W is built for women who demand ultimate versatility from their freeride skis. Our Titanal Y-Beam construction keeps things damp and stable when speeds are high and conditions are choppy, while the All-Terrain Rocker profile and moderate waist width maintain quickness and agility when you find yourself in tight spots or technical terrain.

## KEY FEATURES

Ti Y-Beam

<b>SIZES (CM):</b>	154, 160, 166, 172
<b>DIMENSIONS (MM):</b>	134-99-120
<b>ROCKER:</b>	All-Terrain Rocker
<b>RADIUS (M):</b>	15.4 @ 166
<b>CORE:</b>	Aspen Veneer

# ALL-NEW MINDBENDER 89Ti W

The women's-specific Mindbender 89TiW is the perfect companion for when you're in the mood to rip, but soft snow isn't on the menu. Titanal Y-Beam construction provides confidence-inspiring stability and high-speed edge hold on firm snow, while the All-Terrain Rocker profile still gives you the freedom to explore off the beaten path.

## KEY FEATURES

Ti Y-Beam

<b>SIZES (CM):</b>	146, 152, 158, 164, 170
<b>DIMENSIONS (MM):</b>	130-89-114
<b>ROCKER:</b>	All-Terrain Rocker
<b>RADIUS (M):</b>	13.1 @ 164
<b>CORE:</b>	Aspen Veneer

# MINDBENDER 90C W

The Mindbender 90C W is for intermediate to advanced skiers looking for a lightweight option that's comfortable going beyond the groomers. Built with our Spectral Braid technology and All-Terrain Rocker profile, this is a lively, agile freeride solution for women that inspires confidence anywhere on the mountain.

## KEY FEATURES

Spectral Braid, Carbon Boost, Slantwall

<b>SIZES (CM):</b>	149, 156, 163, 170
<b>DIMENSIONS (MM):</b>	127-90-113
<b>ROCKER:</b>	All-Terrain Rocker
<b>RADIUS (M):</b>	14.5 @ 163
<b>CORE:</b>	Aspen Veneer

# MINDBENDER 85 W

Designed for intermediate female skiers looking to get off the groomers and into more adventurous terrain, the Mindbender 85 W provides an agile, forgiving platform that excels in a variety of conditions. Sharing the same lightweight Aspen Veneer core and All-Terrain Rocker profile as some of its bigger sisters, this ski is also available in shorter lengths for smaller skiers.

## KEY FEATURES

Slantwall

<b>SIZES (CM):</b>	149, 156, 163, 170
<b>DIMENSIONS (MM):</b>	130-85-113
<b>ROCKER:</b>	All-Terrain Rocker
<b>RADIUS (M):</b>	12.1 @ 163
<b>CORE:</b>	Aspen Veneer

## ALL-NEW DISRUPTION Ti<sup>2</sup>

Looking to turn the mountain into your personal GS course? You've come to the right place. The Disruption Ti<sup>2</sup> is a no-holds-barred, stable-as-a-rock speed demon that doesn't know the meaning of second place. Dark Matter Damping, a long turn radius, and our new Ti<sup>2</sup> I-Beam construction - with twice as much metal as our Disruption MTi - combine to make this the most damp, stable piste ski we've ever built. Buckle your seatbelt - these monsters have the need. The need for speed.

### KEY FEATURES

Dark Matter Damping, Ti<sup>2</sup> I-Beam, World Cup Piston Plate

<b>SIZES (CM):</b>	177, 182, 187
<b>DIMENSIONS (MM):</b>	111-71-96
<b>ROCKER:</b>	Speed Rocker
<b>RADIUS (M):</b>	22.3 @ 182
<b>CORE:</b>	Aspen Veneer
<b>BINDING:</b>	Marker XCOMP 16

## DISRUPTION MTi

The Disruption MTi is an aggressive ski designed for experts who wanna go fast. A medium-length turn radius, Titanal I-Beam construction, and Dark Matter Damping combine for precise edge hold and a smooth ride that inspire confidence when your primary concern is maxing out the speedometer on the corduroy.

### KEY FEATURES

Dark Matter Damping, Ti I-Beam, Powerwall

<b>SIZES (CM):</b>	165, 170, 175, 180
<b>DIMENSIONS (MM):</b>	118-74-104
<b>ROCKER:</b>	Speed Rocker
<b>RADIUS (M):</b>	18.1 @ 175
<b>CORE:</b>	Maple/Aspen
<b>BINDING:</b>	Marker MXCELL 12 TCx Quikclik

## DISRUPTION STi

Perfect for the aggressive expert skier who commits to every turn and demands rock-solid edge hold when it counts. The Disruption STi employs a tight turn radius, Titanal I-Beam construction, and Dark Matter Damping to deliver a smooth, deflection-free feel that will elevate your game when conditions are firm and fast.

### KEY FEATURES

Dark Matter Damping, Ti I-Beam, Powerwall

<b>SIZES (CM):</b>	155, 160, 165, 170
<b>DIMENSIONS (MM):</b>	125-72-107
<b>ROCKER:</b>	Speed Rocker
<b>RADIUS (M):</b>	13.6 @ 165
<b>CORE:</b>	Aspen Veneer
<b>BINDING:</b>	Marker MXC 12 TCx light Quikclik

## DISRUPTION SC

It's time to start railing turns like you've always imagined. The Disruption SC's carbon I-Beam construction makes it more forgiving than its metal-laden siblings, while still delivering razor-sharp edge control and a smooth ride on the firmest of hardpack. Stepping up to a more specialized piste ski has never been more inviting.

### KEY FEATURES

Dark Matter Damping, Carbon I-Beam, Powerwall

<b>SIZES (CM):</b>	156, 162, 168, 174
<b>DIMENSIONS (MM):</b>	126-73-108
<b>ROCKER:</b>	Speed Rocker
<b>RADIUS (M):</b>	15.2 @ 174
<b>CORE:</b>	Aspen Veneer
<b>BINDING:</b>	Marker M3 11 Compact Quikclik

## DISRUPTION 82Ti

Fully equipped and ready to rip, the Disruption 82Ti has all our top tech including Titanal I-Beam construction and Dark Matter Damping. We gave it a big shovel and the widest waist width in the Disruption family to create a freakish combination of critical stability and confident edge control. You'll be comfortable hitting top speed while still having the confidence to roll up on edge and spark arcs like you never thought possible.

### KEY FEATURES

Dark Matter Damping, Ti I-Beam, Powerwall

<b>SIZES (CM):</b>	163, 170, 177, 184
<b>DIMENSIONS (MM):</b>	125-82-111
<b>ROCKER:</b>	Speed Rocker
<b>RADIUS (M):</b>	18.4 @ 177
<b>CORE:</b>	Aspen Veneer
<b>BINDING:</b>	Marker MXCELL 12 TCx Quikclik

## DISRUPTION 78Ti

Strung up with our revolutionary Dark Matter Damping and Titanal I-Beam construction, this ski can bend and arc like nothing you've ever experienced. From the firmness of first chair to the uncertainties of afternoon chop, the Disruption 78Ti will redefine your perception of versatile piste performance.

### KEY FEATURES

Dark Matter Damping, Ti I-Beam, Powerwall

<b>SIZES (CM):</b>	156, 163, 170, 177, 184
<b>DIMENSIONS (MM):</b>	123-78-109
<b>ROCKER:</b>	Speed Rocker
<b>RADIUS (M):</b>	17.8 @ 177
<b>CORE:</b>	Aspen Veneer
<b>BINDING:</b>	Marker MXC 12 TCx light Quikclik

## DISRUPTION 78C

Having high-tech older siblings has its advantages. The Disruption 78C benefits from hand-me-down technology that allows us to pack in features that put other skis in this price range to shame. An approachable waist width and the lightweight agility of our carbon I-Beam construction create a versatile ski that will let you hang with the best.

### KEY FEATURES

Dark Matter Damping, Carbon I-Beam, Powerwall

<b>SIZES (CM):</b>	156, 163, 170, 177
<b>DIMENSIONS (MM):</b>	125-78-111
<b>ROCKER:</b>	Speed Rocker
<b>RADIUS (M):</b>	15.6 @ 170
<b>CORE:</b>	Aspen Veneer
<b>BINDING:</b>	Marker M3 11 Compact Quikclik

## DISRUPTION 76X

There comes a time to step out of the rental line and experience the pride of ownership with your very own pair of skis. These smooth, versatile performers have all the tech you need, headlined by our I-Beam construction and Catch Free Rocker profile. Ditch the bunny hill and broaden your horizons with the Disruption 76X.

### KEY FEATURES

I-Beam, Hybritech

<b>SIZES (CM):</b>	156, 163, 170, 177
<b>DIMENSIONS (MM):</b>	126-76-110
<b>ROCKER:</b>	Catch Free Rocker
<b>RADIUS (M):</b>	14.4 @ 170
<b>CORE:</b>	Aspen Light
<b>BINDING:</b>	Marker M3 10 Compact Quikclik

## DISRUPTION 76

Ski school is out for the winter and you're ready to explore the mountain on your own. The Disruption 76 is the ski that will take you everywhere with confidence. The nimble and forgiving design, featuring our Catch Free Rocker profile, will keep you smiling all day long as you continue to develop your skills and push your limits as a skier.

### KEY FEATURES

I-Beam, Hybritech

<b>SIZES (CM):</b>	156, 163, 170, 177
<b>DIMENSIONS (MM):</b>	126-76-110
<b>ROCKER:</b>	Catch Free Rocker
<b>RADIUS (M):</b>	14.4 @ 170
<b>CORE:</b>	Composite
<b>BINDING:</b>	Marker M2 10 Quikclik, Marker M2 10

## DISRUPTION MTi W

Whether it's recreational league racing or early morning attacks on perfect corduroy, you need a women's-specific piste ski that's as aggressive as you are. There are no compromises here. Built with our top materials and technology like Dark Matter Damping and Titanal I-Beam construction, the Disruption MTi W delivers the speed and stability you need to ski the way you want.

### KEY FEATURES

Dark Matter Damping, Ti I-Beam, Powerwall

<b>SIZES (CM):</b>	146, 153, 160, 167
<b>DIMENSIONS (MM):</b>	115-72-103
<b>ROCKER:</b>	Speed Rocker
<b>RADIUS (M):</b>	14.7 @ 160
<b>CORE:</b>	Aspen Veneer
<b>BINDING:</b>	Marker ERC 11 TCx light Quikclik

## DISRUPTION SC W

Head for the hills and pull in like never before on the women's-specific Disruption SC W. This freak of a ski packs a serious punch thanks to a combination of its sharp turning radius, Dark Matter Damping, and agile carbon I-Beam construction. Perfect for women who like a sporty, short-turn feel designed for pulling g-forces on the groomers.

### KEY FEATURES

Dark Matter Damping, Carbon I-Beam, Powerwall

<b>SIZES (CM):</b>	146, 153, 160, 167
<b>DIMENSIONS (MM):</b>	127-74-109
<b>ROCKER:</b>	Speed Rocker
<b>RADIUS (M):</b>	12.6 @ 160
<b>CORE:</b>	Aspen Veneer
<b>BINDING:</b>	Marker ER3 10 Compact Quikclik

## DISRUPTION 81Ti W

Fast. Stable. Agile. Impossible, you say? Spin a lap on the Disruption 81Ti W you'll be singing a different tune. Thanks to our Dark Matter Damping and Titanal I-Beam construction, this women's-specific piste destroyer is damp and calm when railing groomers, but is versatile enough to blast through chop and chunder when conditions are less than ideal.

### KEY FEATURES

Dark Matter Damping, Ti I-Beam, Powerwall

<b>SIZES (CM):</b>	146, 153, 160, 167
<b>DIMENSIONS (MM):</b>	124-81-110
<b>ROCKER:</b>	Speed Rocker
<b>RADIUS (M):</b>	14.8 @ 160
<b>CORE:</b>	Aspen Veneer
<b>BINDING:</b>	Marker ERC 11 TCx light Quikclik

## DISRUPTION 78C W

Nimble and lively thanks to its carbon I-Beam construction, but still delivering the edge grip you need to arc some serious turns on the hardpack, the Disruption 78C W is the complete package. This women's-specific piste ski will keep you going from first chair to last thanks to its Dark Matter Damping technology and energetic feel.

### KEY FEATURES

Dark Matter Damping, Carbon I-Beam, Powerwall

<b>SIZES (CM):</b>	146, 153, 160, 167
<b>DIMENSIONS (MM):</b>	123-78-108
<b>ROCKER:</b>	Speed Rocker
<b>RADIUS (M):</b>	14.4 @ 160
<b>CORE:</b>	Aspen Veneer
<b>BINDING:</b>	Marker ER3 10 Compact Quikclik

## DISRUPTION 76C W

Packed to the gills with features like our carbon I-Beam construction and Hybritech sidewalls, the Disruption 76C W is built for women who need a piste ski that is light underfoot and quick edge to edge. Its Aspen Light core is easy on the legs, forgiving at any speed, and energetic in the turns, letting you go strong on the piste all day long

### KEY FEATURES

Carbon I-Beam, Hybritech

<b>SIZES (CM):</b>	142, 149, 156, 163
<b>DIMENSIONS (MM):</b>	126-76-110
<b>ROCKER:</b>	Speed Rocker
<b>RADIUS (M):</b>	11.8 @ 156
<b>CORE:</b>	Aspen Light
<b>BINDING:</b>	Marker ER3 10 Compact Quikclik

## DISRUPTION 76 W

These smooth performers have all the tech a female skier could need to start carving harder and gain confidence going faster. Headlined by our I-Beam construction, Aspen Light core, and Speed Rocker profile, they'll be there to get you through it all, from the unexpectedly steep groomers to the afternoon crud. Enter the next chapter of your ski career with the Disruption 76 W

### KEY FEATURES

I-Beam, Hybritech

<b>SIZES (CM):</b>	142, 149, 156, 163
<b>DIMENSIONS (MM):</b>	126-76-110
<b>ROCKER:</b>	Catch Free Rocker
<b>RADIUS (M):</b>	11.8 @ 156
<b>CORE:</b>	Aspen Light
<b>BINDING:</b>	Marker ERP 10 Quikclik

## DISRUPTION 75 W

When you're ready to explore the mountain on your own, the women's-specific Disruption 75 W is the ski that will take you everywhere with confidence. Its nimble and forgiving design, featuring a lightweight composite core and our Catch Free Rocker profile, will keep you smiling as you continue to develop your skills and push your limits as a skier.

### KEY FEATURES

I-Beam, Duracap

<b>SIZES (CM):</b>	142, 149, 156, 163
<b>DIMENSIONS (MM):</b>	125-75-109
<b>ROCKER:</b>	Catch Free Rocker

<b>CORE:</b>	Composite
<b>BINDING:</b>	Marker ERP 10 Quikclik, Marker ERP 10, flat

INTRODUCING THE ALL NEW DISPATCH COLLECTION

# DISPATCH

A LIGHTWEIGHT, STABLE AND POWERFUL DESIGN SPECIFICALLY ENGINEERED FOR STEEP AND DEEP TERRAIN.

## TECHNOLOGY: DISPATCH

### HEX-BEAM- Improved Dampness and Directional Stability

- Moves mass away from the mounting point toward the tip and tail of the ski to increase swing-weight and promote predictable turn initiation.
- Increases directional stability and tracking while maintaining power transmission

### STEADFAST BASE- Glides Better, Longer

- Retains wax 9x longer than a high-end sintered base
- Improved wax adhesion, preventing skins from pulling wax from the base
- Requires 30% less energy to produce

### UNI-DIRECTIONAL FLAX- Stability and Weight Savings

- Running Length of the Ski
  - Tip to Tail
- Dampness and Weigh Savings
  - Stable and Maneuverable
- High Performance with Low Environmental Impact

### VIBRADET- Energy Absorption Under Foot

- Reduces vibrations between the ski/skier interface which enhances suspension and control
- Beneficial when paired with tech bindings
  - Adding Elasticity
  - Dampens Vibration Underfoot

# DISPATCH

**ALL-NEW**  
**DISPATCH 120**

The Dispatch 120 was built for steep, deep, and bottomless terrain. With our all-new Titanal Hex Beam construction, Steadfast Base, and Uni-Directional Flax, this soft snowspecific ski boasts a foolproof union of weight-conscious stability and dampness. Perfect for turning the backcountry into your personal playground.

**KEY FEATURES**  
HEX-Beam, Uni Directional Flax, Steadfast Base

<b>SIZES (CM):</b>	178, 186, 192
<b>DIMENSIONS (MM):</b>	139-120-130
<b>RÖCKER:</b>	Powder Rocker
<b>WEIGHT (G):</b>	1905g
<b>RADIUS (M):</b>	29 @ 186
<b>CORE:</b>	Paulownia

**ALL-NEW**  
**DISPATCH 110**

When backcountry conditions get spicy, you'll be glad you picked the Dispatch 110. A mid-fat waist width and our all-new Titanal Hex Beam construction make this ski the most versatile in the Dispatch line, while the Steadfast Base and Uni-Directional Flax work together to create dependable stability. Long and variable pursuits are no match for this confidence-inspiring ski.

**KEY FEATURES**  
HEX-Beam, Uni Directional Flax, Steadfast Base

<b>SIZES (CM):</b>	170, 177, 184, 191
<b>DIMENSIONS (MM):</b>	130-110-120
<b>RÖCKER:</b>	All-Terrain Rocker
<b>WEIGHT (G):</b>	1749g
<b>RADIUS (M):</b>	27.3 @ 184
<b>CORE:</b>	Paulownia

**ALL-NEW**  
**DISPATCH 101**

Leveraging the same Titanal Hex Beam construction, Steadfast base, and Uni-Directional Flax as its wider teammates, the Dispatch 101 is built for play. This ski is lightweight yet stable with the predictability and control required for successful backcountry missions. Look no further than the Dispatch 101.

**KEY FEATURES**  
HEX-Beam, Uni Directional Flax, Steadfast Base

<b>SIZES (CM):</b>	161, 168, 175, 182, 189
<b>DIMENSIONS (MM):</b>	123-101-112
<b>RÖCKER:</b>	All-Terrain Twin Rocker
<b>WEIGHT (G):</b>	1695g
<b>RADIUS (M):</b>	26.3 @ 182
<b>CORE:</b>	Paulownia

**WAYBACK**

## WAYBACK 106

A mid-fat waist and a shape that excels in soft snow make the Wayback 106 your clear choice for when it's deep and weight is a concern. We put Titanal in our touring skis for unmatched downhill performance and stability, while still keeping things light enough for long days on the skin track. Click into the Wayback 106 and you'll be wondering why you've spent so much time waiting in lift lines.

### KEY FEATURES

Ti Spyne, Carbon Overdrive, Snophobic Topsheet

#### CONSTRUCTION

#### ROCKER PROFILE | ALL-TERRAIN ROCKER

<b>SIZES (CM):</b>	172, 179, 186
<b>DIMENSIONS (MM):</b>	136-106-124
<b>ROCKER:</b>	All-Terrain Rocker
<b>WEIGHT (G) / RADIUS (M):</b>	1552 / 22 @ 179
<b>CORE:</b>	Paulownia Tour Light

## WAYBACK 96

Strapped up with T3 Technology - that's metal-laden construction - the Wayback 96 offers uncompromised downhill capabilities in a super-light package. Whether you're on a multi-day hut trip or pushing out for a quick dawn patrol, the Wayback 96 offers the best stability-to-weight ratio on the market. Efficient on the way up, while still inspiring confidence on the way down.

### KEY FEATURES

Ti Spyne, Carbon Overdrive, Snophobic Topsheet

#### CONSTRUCTION

#### ROCKER PROFILE | ALL-TERRAIN ROCKER

<b>SIZES (CM):</b>	170, 177, 184
<b>DIMENSIONS (MM):</b>	128-96-115

## WAYBACK 88

It's hard to believe something this light can still deliver on the descents. The Titanal-reinforced Wayback 88 will change your opinion of featherweight touring skis. They can fly up the skin track with the best of 'em, yet inspire confidence when the snow is variable and the descents are steep. Why hike all that way if you're not gonna have fun on the way down?

### KEY FEATURES

Ti Spyne, Carbon Overdrive, Snophobic Topsheet

#### CONSTRUCTION

#### ROCKER PROFILE | ALL-TERRAIN ROCKER

<b>SIZES (CM):</b>	160, 167, 174, 181
<b>DIMENSIONS (MM):</b>	121-88-109
<b>ROCKER:</b>	All-Terrain Rocker
<b>WEIGHT (G) / RADIUS (M):</b>	1270 / 20 @ 174
<b>CORE:</b>	Paulownia Tour Light

## WAYBACK 84

With a Snophobic topsheet and an ultra light paulownia Tour Light core, the Wayback 84 is the reliable touring ski that won't break the bank. Whether you're crushing fitness laps at the resort or making your first moves into the backcountry, mount up the Wayback 84 and experience the mountains in a whole new way.

### KEY FEATURES

Snophobic Topsheet

#### CONSTRUCTION

#### ROCKER PROFILE | ALL-TERRAIN ROCKER

<b>SIZES (CM):</b>	146, 153, 160, 167, 174
<b>DIMENSIONS (MM):</b>	118-84-106
<b>ROCKER:</b>	All-Terrain Rocker
<b>WEIGHT (G) / RADIUS (M):</b>	1287 / 20 @ 174
<b>CORE:</b>	Paulownia Tour Light

## WAYBACK 80

Featuring our balsa/paulownia Tour Ultra Light wood core, Ti Spyne construction for stability underfoot, and integrated race notches in the tip, the Wayback 80 is an ultra light tool optimized to get you uphill fast. If blistering traverses and ski mountaineering races sound like your idea of a good time, this is your dream ski.

### KEY FEATURES

Ti Spyne, Carbon Overdrive, Snophobic Topsheet

#### CONSTRUCTION

<b>WEIGHT (G) / RADIUS (M):</b>	968 / 18 @ 163
<b>CORE:</b>	Balsa/Paulownia Tour Ultra Light

## WAYBACK 96 W

Rule the skin track and crush the descents with confidence on the Wayback 96 W. This lightweight, women's-specific touring ski is built with our paulownia Tour Light wood core and reinforced with T3 Technology, which places metal in strategic locations along the length of the ski for added damping and stability. The Wayback 96 W strikes the perfect balance between uphill efficiency and downhill performance, making it the ideal companion for big days in the backcountry.

### KEY FEATURES

Ti Spyne, Carbon Overdrive, Snophobic Topsheet

<b>SIZES (CM):</b>	156, 163, 170
<b>DIMENSIONS (MM):</b>	128-96-115

<b>WEIGHT (G) / RADIUS (M):</b>	1154 / 18 @ 160
<b>CORE:</b>	Paulownia Tour Light

# RECKONER

# RECKONER 122

The Reckoner 122 is a dedicated powder twin-tip built to crush pillows, send cornices, and boost wind lips. A fir/aspen wood core combined with our patented Spectral Braid technology creates the perfect combination of surfy and stout, allowing this ski to bounce, pivot, and charge through the deepest snow without skipping a beat.

## KEY FEATURES

Spectral Braid, Carbon Boost, TwinTech

<b>SIZES (CM):</b>	177, 184, 191
<b>DIMENSIONS (MM):</b>	144-122-136
<b>ROCKER:</b>	Powder Twin Rocker
<b>RADIUS (M):</b>	23.7 @ 184
<b>CORE:</b>	Fir/Aspen Double Barrel

# RECKONER 112

You know that ski that can do it all? The one that slashes, slashes, jumps, and cuts? The one that can bounce pillows to the ground floor, hit jumps late into the afternoon sun, and charge through tracked-out pow? People say it doesn't exist, but we're here to tell you otherwise. The Reckoner 112 is all you need, no matter what the mountain throws at you.

## KEY FEATURES

Spectral Braid, Carbon Boost, TwinTech

<b>SIZES (CM):</b>	170, 177, 184, 191
<b>DIMENSIONS (MM):</b>	136-112-127
<b>ROCKER:</b>	All-Terrain Twin Rocker
<b>RADIUS (M):</b>	22.9 @ 184
<b>CORE:</b>	Fir/Aspen Double Barrel

# RECKONER 102

From the pow to the park and everywhere in between, the Reckoner 102 delivers thanks to its heavy freestyle influence. Featuring the same tech as its bigger brothers but with a more nimble waist width, this playful twin-tip is at home whipping cork threes off cat tracks, pivoting through tight east coast trees, or hunting for side hits on the groomers. Wherever you decide to take it, the Reckoner 102 has got your back.

## KEY FEATURES

Spectral Braid, Carbon Boost, TwinTech

<b>SIZES (CM):</b>	163, 170, 177, 184
<b>DIMENSIONS (MM):</b>	134-102-127
<b>ROCKER:</b>	All-Terrain Twin Rocker
<b>RADIUS (M):</b>	19.3 @ 184
<b>CORE:</b>	Fir/Aspen Double Barrel

# RECKONER 92

When it's time to click in to your first pair of twin-tips, the Reckoner 92 will make all your wildest dreams come true. From the park to the trees to afternoon chop, these playful boards and their versatile All-Terrain Twin Rocker profile will have you wondering why you waited so long to jump on the twin-tip train. Also available in shorter lengths for smaller skiers.

## KEY FEATURES

Triaxial Braid, Hybritech

<b>SIZES (CM):</b>	149, 159, 169, 179
<b>DIMENSIONS (MM):</b>	124-92-114
<b>ROCKER:</b>	All-Terrain Twin Rocker
<b>RADIUS (M):</b>	16.9 @ 169
<b>CORE:</b>	Aspen Veneer
<b>BINDING:</b>	Marker M2 10 Quikclik, flat

# RECKONER 92 W

The Reckoner 92 W is a women's-specific twin-tip built to confidently take you from the park, to the steeps, to the bumps, and back. Built with our All-Terrain Twin Rocker and a lively Aspen Veneer core, these skis are light on your feet and big on fun. Also available in shorter lengths for smaller skiers.

## KEY FEATURES

Triaxial Braid, Hybritech

<b>SIZES (CM):</b>	149, 159, 169
<b>DIMENSIONS (MM):</b>	124-92-114
<b>ROCKER:</b>	All-Terrain Twin Rocker
<b>RADIUS (M):</b>	14.6 @ 169
<b>CORE:</b>	Aspen Veneer

**PARK & PIPE**

# MIDNIGHT

Formerly known as the MissConduct, this is the ski that has taken K2's female athletes to the top of freestyle skiing's most prestigious podiums. The Midnight's Carbon Boost construction and lightweight aspen wood core deliver pop for days, while the sturdy TwinTech sidewalls provide the durability you need to lap the park until that new trick is locked down.

### KEY FEATURES

Carbon Boost, TwinTech

<b>RADIUS (M):</b>	14.5 @ 169
<b>CORE:</b>	Aspen

# POACHER

A favorite among K2's freestyle athletes, the Poacher is a common sight atop X Games and Dew Tour podiums. While it excels in the spotlight of major contests, this park ski is burly enough to dominate the heaviest late-night street sessions. Built with our Carbon Boost construction and a fir/aspen wood core, these skis deliver with tons of pop off the lip and the stability you need to stomp those deep landings.

### KEY FEATURES

<b>RADIUS (M):</b>	19 @ 184
<b>CORE:</b>	Fir/Aspen Double Barrel

# SIGHT

Whether your days on the hill involve lapping the park, hiking rails, or sessioning the pipe, the Sight's narrow waist and responsive feel inspire creativity and progression. Our Carbon Boost construction gives this ski the agility to satisfy any dedicated rail specialist who lives for technical tricks, and it's even available in shorter lengths for smaller skiers who are looking to make a big impact.

<b>CORE:</b>	Fir/Aspen

# 244

Equally at home in a starting gate or lapping soft bumps under bluebird skies, the 244 is the precision mogul ski that will take your game to the next level. Stout, stiff, and built for competition, this ski's pedigree can be traced back to Jonny Moseley's Olympic gold in '98. These boards can bash with the best of 'em.

### KEY FEATURES

SPECIALTY

## MINDBENDER TEAM

The Mindbender Team is the go-to tool for young guns who are looking to hang with the big dogs on serious freeride terrain. With a responsive Aspen Veneer core and versatile All-Terrain Rocker, this is no watered-down kids' ski - these planks are a smaller version of our legendary Mindbender adult skis and they're built to blast.

### KEY FEATURES

Hybritech, Tapered Tip/Tail

SIZES (CM):	145, 155, 165
DIMENSIONS (MM):	127-98-116
ROCKER:	All-Terrain Rocker
RADIUS (M):	14.3 @ 153
CORE:	Aspen Veneer

## MINDBENDER JR

For the little grom with big-mountain dreams, step into the Mindbender Jr. With a full wood core, quick edge-to-edge feel, and the same look as our award-winning Mindbender adult freeride skis, these boards are the ideal launch pad for young skiers with lofty aspirations.

### KEY FEATURES

Full Wood Core, Hybritech

SIZES (CM):	119, 129, 139, 149
DIMENSIONS (MM):	110-84-98
ROCKER:	All-Terrain Rocker
RADIUS (M):	12 @ 139
CORE:	Aspen
BINDING:	Marker FDT 4.5, FDT 7.0

## DISRUPTION JR

Made for kids who know how to rail a turn. For those on the racecourse or chasing Mom and Dad on early-morning groomer missions, the Disruption Jr is the piste ski your little ripper needs.

### KEY FEATURES

Full Wood Core, Triaxial Braid

SIZES (CM):	134, 144, 154
DIMENSIONS (MM):	104-68-88
ROCKER:	Speed Rocker
RADIUS (M):	16 @ 144
CORE:	Aspen
BINDING:	Marker FDT 7.0

## ALL-NEW WAYBACK JR

The Wayback Jr is the go-to tool for any grom looking to spend some time on the skin track. With a nimble Paulownia Tour Light core, versatile 84mm waist and All-Terrain Rocker this is a smaller version of our steadfast Wayback B4, built for the future trailblazer.

### KEY FEATURES

Snophobic Topsheet

SIZES (CM):	126, 136, 146
DIMENSIONS (MM):	118-84-106
ROCKER:	All-Terrain Rocker
RADIUS (M):	11.2 @ 136
CORE:	Paulownia Tour Light

## POACHER JR

Taking a cue from the full-size Poacher, the Poacher Jr offers the same freestyle stance and feel for young skiers dreaming of X Games podiums. Thanks to a poppy aspen wood core and durable cap construction, these skis are built for endless park laps, all season long.

### KEY FEATURES

Full Wood Core, Duracap, Full Height Twin-Tip

SIZES (CM):	109, 119, 129, 139, 149
DIMENSIONS (MM):	102-75-96
ROCKER:	All-Terrain Twin Rocker
RADIUS (M):	10 @ 129
CORE:	Aspen
BINDING:	Marker FDT 4.5, FDT 7.0

## DREAMWEAVER

Your little one hits every single side hit and jump in sight. She might even look up to the older girls ripping park laps and putting the boys to shame. If she's on a mission to learn 180s, slide boxes, and jib around the entire mountain, snag her a pair of Dreamweavers. With a durable cap construction and full wood core, she'll be developing the skills to be in podium contention sooner than you might think.

### KEY FEATURES

Full Wood Core, Duracap, Full Height Twin-Tip

SIZES (CM):	109, 119, 129, 139, 149
DIMENSIONS (MM):	102-75-96
ROCKER:	All-Terrain Twin Rocker
RADIUS (M):	10 @ 129
CORE:	Aspen
BINDING:	Marker FDT 4.5, FDT 7.0

# JUVY

When it's time for your grom to step up to a more capable pair of kids' skis, look no further than the Juvy. A lightweight composite core and durable cap construction make for a reliable ski that won't break the bank.

## KEY FEATURES

Duracap

**ALL-NEW**  
**MINDBENDER TEAM**

The Mindbender Team is new for Fall 2022 and stacked with performance. We upped the flex rating to a sturdy 140 and kept the weight down to create a boot that's stiff, powerful, nimble, and ready to take on any lift-assisted or backcountry endeavor. Take control of the mountain with our fully customizable Powerfit Pro Tour liner, Powerlite Shell, and a huge 50-degree range of motion walk mode.

**KEY FEATURES**

Powerlite Shell, Powerlock Spyne, Fastfit Instep, Fully heat-moldable, integrated Tech Fittings, Friction Free Cuff Pivot, Power Plate

FLEX RATING:	140
LAST WIDTH (MM):	98
WEIGHT (G):	1825
SHELL MATERIAL:	TPU
CUFF MATERIAL:	Pebax
LINER:	Powerfit Pro Tour
STRAP:	Cam Booster
OUTSOLE:	GripWalk
SIZE RANGE:	24.5-30.5

**MINDBENDER 130**

Built with a heat-moldable Powerlite shell, Friction Free Cuff Pivot, tech fittings, and a burly 130 flex, the Mindbender 130 is the versatile freeride boot you need for both chairlift-assisted and human-powered endeavors. When it comes time to venture beyond the resort, flip the Powerlock Spyne into walk mode and appreciate the impressive 50-degree range of motion as you power uphill to your next objective.

**KEY FEATURES**

Powerlite Shell, Powerlock Spyne, Fastfit Instep, Fully heat-moldable, integrated Tech Fittings, Friction Free Cuff Pivot

FLEX RATING:	130
LAST WIDTH (MM):	98
WEIGHT (G):	1725
SHELL MATERIAL:	Powerlite TPU
CUFF MATERIAL:	Pebax
LINER:	Powerfit Pro Tour
STRAP:	Cam Booster
OUTSOLE:	GripWalk
SIZE RANGE:	24.5-30.5

**MINDBENDER 120**

With a 120 flex rating, tech inserts, and a walk mode boasting a 50-degree range of motion, the Mindbender 120 offers all of the performance you'll need to charge the steeps and rally in the deep. The Precisionfit Pro Tour liner and heat-moldable Powerlite shell provide all-day comfort, whether ripping laps at the resort or bagging peaks in the backcountry.

**KEY FEATURES**

Powerlite Shell, Powerlock Spyne, Fastfit Instep, Fully heat-moldable, integrated Tech Fittings, Friction Free Cuff Pivot

CUFF MATERIAL:	TPU
LINER:	Luxfit Pro Tour
STRAP:	40mm Velcro
OUTSOLE:	GripWalk
SIZE RANGE:	22.5-27.5

# RECON / ANTHEM

## ALL-NEW RECON TEAM

The all-new Recon Team is the Recon Pro's rebellious twin. Featuring the same stout 140 flex and fully customizable Powerfit Pro liner, this ultra-precise high-performance boot features integrated tech fittings at the toe for full compatibility with the new generation of freeride tech bindings. Now go hit that line you've had your eye on all season.

### KEY FEATURES

Powerlite Shell, Powerfuse Spyne, Integrated Tech Fitting, Energy Interlock, Fastfit Instep, fully heat-moldable, Power Plate

FLEX RATING:	140
LAST WIDTH (MM):	99
WEIGHT (G):	1750
SHELL MATERIAL:	Powerlite TPU
CUFF MATERIAL:	Pebax
LINER:	Powerfit Pro
STRAP:	Cam Booster
OUTSOLE:	Gripwalk
SIZE RANGE:	24.5-30.5

# RECON PRO

Forged out of our award-winning Powerlite shell and sporting a stout 140 flex, the Recon Pro is the powerful performance boot you've been waiting for. Featuring our Powerfit Pro liner, a 98mm last, and a fully heat-moldable shell, this boot offers top-end performance - from burly, technical lines to pulling g-forces on the corduroy - while tipping the scales at a svelte 1740g.

### KEY FEATURES

Powerlite Shell, Powerfuse Spyne, Energy Interlock, Fastfit Instep, fully heat-moldable, Power Plate

FLEX / FEEL

FLEX RATING:	140
LAST WIDTH (MM):	98
WEIGHT (G):	1740
SHELL MATERIAL:	Powerlite TPU
CUFF MATERIAL:	Pebax
LINER:	Powerfit Pro
STRAP:	Cam Booster
OUTSOLE:	ISO 5355 (Alpine DIN)
SIZE RANGE:	24.5-30.5

# RECON 130

Delivering power and precision at an ultra light 1700g, the Recon 130 is equipped with a heat-moldable shell, aggressive 130 flex rating, our top-of-the-line Powerfit Pro liner, GripWalk outsoles, and a Fastfit instep. Proof that added performance doesn't have to mean added weight, this award-winning boot is back for another year and ready to rally. Available in 98mm (LV) and 100mm (MV) lasts to accommodate a wide variety of foot shapes.

### KEY FEATURES

Powerlite Shell, Powerfuse Spyne, Energy Interlock, Fastfit Instep, fully heat-moldable

FLEX / FEEL

FLEX RATING:	130
LAST WIDTH (MM):	98 (LV), 100 (MV)
WEIGHT (G):	1700

SIZE RANGE:	24.5-30.5

# RECON 90

The all-new Recon 90 is designed for beginner to intermediate skiers looking to make the leap from comfort boots to some higher-performance footwear. A medium-volume fit provides greater precision and control than your old high-volume boots, but the 90 flex rating is still gentle on your shins when the snow gets choppy. Throw in our proven, heat-moldable Powerlite shell and you've got a boot that packs heaps of customization and value into a sleek package that won't hold you back.

### KEY FEATURES

Powerlite Shell, Powerfuse Spynne, Energy Interlock, Fastfit Instep, fully heat-moldable

FLEX RATING:	90
LAST WIDTH (MM):	100
WEIGHT (G):	1650
SHELL MATERIAL:	Powerlite TPU
CUFF MATERIAL:	PP
LINER:	Luxfit
STRAP:	40mm Velcro
OUTSOLE:	GripWalk
SIZE RANGE:	24.5-30.5

# ALL-NEW ANTHEM TEAM

We took our Anthem Pro model and added a little bit of spice for Fall 2022. You'll find the same stealthy, ultra-precise, fully customizable, women's-specific, 125 flex-rated high-performance ski boot, but with added integrated tech fittings at the toe of the boot that are compatible with the new generation of tech bindings. Ideal for short side-country missions so that you can get no-compromise freeride performance without having to change boots.

### KEY FEATURES

Powerlite Shell, Powerfuse Spynne, Integrated Tech Fitting, Energy Interlock, Fastfit Instep, fully heat-moldable, Power Plate, Womens Adjustable Cuff

FLEX RATING:	125
LAST WIDTH (MM):	98
WEIGHT (G):	1660
SHELL MATERIAL:	Powerlite TPU
CUFF MATERIAL:	Pebax
LINER:	Powerfit Pro
STRAP:	Cam Booster
OUTSOLE:	GripWalk
SIZE RANGE:	22.5-27.5

# ANTHEM PRO

The stealthy Anthem Pro channels the best customizable features from the award-winning Anthem collection into a powerful, ultra-precise 125-flex rated package. Features like a heat-moldable Powerlite shell, a Powerfit Pro liner, and a Fastfit instep are strategically deployed to complement the women's-specific fit, making the Anthem Pro a perfect choice for aggressive female skiers.

### KEY FEATURES

Powerlite Shell, Powerfuse Spynne, Energy Interlock, Fastfit Instep, fully heat-moldable, Women's Adjustable Cuff, Power Plate

FLEX RATING:	125
LAST WIDTH (MM):	98
WEIGHT (G):	1650

CUFF MATERIAL:	Pebax
LINER:	Powerfit Pro
STRAP:	Cam Booster
OUTSOLE:	ISO 5355 (Alpine DIN)
SIZE RANGE:	22.5-27.5

# ANTHEM 115

With a bevy of features like a heat-moldable shell, Precisionfit Pro liner, and GripWalk outsoles, the women's-specific Anthem 115 offers an unparalleled power-to-weight ratio. Thanks to our revolutionary Powerlite shell, this boot is stiff and precise while weighing a mere 1560g. That means you can ski longer, harder, and with more control than ever before. Available in 98mm (LV) and 100mm (MV) lasts to accommodate a wide variety of foot shapes.

### KEY FEATURES

Powerlite Shell, Powerfuse Spyne, Energy Interlock, Fastfit Instep, fully heat-moldable, Women's Adjustable Cuff

LINER:	Precisionfit Pro Therm-ic Bluetooth heated
STRAP:	40mm Velcro
OUTSOLE:	GripWalk
SIZE RANGE:	22.5-27.5

# ANTHEM 105

A boot that doesn't compromise on features or tech, the Anthem 105 is a performance-oriented boot with a heat-moldable shell that leaves the bulk and weight behind. We set out to build the most versatile and accommodating women's-specific performance boot on the market and we outdid ourselves. Available in 98mm (LV) and 100mm (MV) lasts to accommodate a wide variety of foot shapes.

### KEY FEATURES

Powerlite Shell, Powerfuse Spyne, Energy Interlock, Fastfit Instep, fully heat-moldable, Women's Adjustable Cuff

SHELL MATERIAL:	Powerlite TPU
CUFF MATERIAL:	TPU
LINER:	Precisionfit Pro
STRAP:	40mm Velcro
OUTSOLE:	GripWalk
SIZE RANGE:	22.5-27.5

# ANTHEM 85

Performance is about more than just a stiff flex rating. The Anthem 85 has the customizable features seen on our stiffer women's boots, like a heat-moldable Powerlite shell and GripWalk outsoles, but with a much more accommodating fit and feel. The end result is a user-friendly boot that delivers all-day comfort and impressive value. Available in 98mm (LV) and 100mm (MV) lasts to accommodate a wide variety of foot shapes.

### KEY FEATURES

Powerlite Shell, Powerfuse Spyne, Energy Interlock, Fastfit Instep, fully heat-moldable, Women's Adjustable Cuff

FLEX RATING:	85
LAST WIDTH (MM):	98 (LV), 100 (MV)

## ALL NEW DISPATCH FREETOUR BOOTS FEATURING ULTRA DURABLE CUSTOMIZATION

Building on the performance of the Powerlite shell. The All-New Dispatch collection features a lightweight Powerlite Tour shell and adds in smart and proven freetour features that focus on lightweight durability, simplicity and customization.

- 60 DEGREE HIKING ROM
- 9-15 DEGREES OF FORWARD LEAN ADJUSTABILITY
- HONEYCOMB BOOTBOARD
- SWITCHBACK BUCKLES
- DYNAFIT TECH FITTING
- VIBRAM OUTSOLE

INTRODUCING

## THE HONEYCOMB BOOTBOARD STAY WARMER, LONGER.

The Honeycomb Bootboard was specifically designed to keep you warmer, longer. The innovative honeycomb design traps heat and insulates like a down jacket. Retains heat 15% better than traditional bootboard. Is Lightweight, customizable and boot-fitter friendly.

### ALL-NEW DISPATCH PRO

Brand new for Fall 2022, the Dispatch Pro is an ergonomic boot that weighs in at just over 1500 grams. It boasts a Vibram sole, 60-degree range of motion walk mode, our new Tourfit BOA liner, and a full 130 flex rating that makes for one of the stiffest touring-specific boots on the market. Experience zero compromises in both downhill and uphill performance on your next big objective.

# BFC

BUILT FOR COMFORT / DESIGNED FOR PERFORMANCE  
CUSHFIT LINER / WALK MODE / PLENTY OF OPTIONS  
EVERYTHING YOU NEED. AND THEN SOME MORE.

## BFC 120

The all-new BFC 120 is for experienced skiers who need a bit more room in their ski boots but don't want to compromise on support and responsiveness. With a 103mm last and a performance-oriented 120 flex, these boots are packed with features like our new and improved Cushfit Pro liner, updated Après Mode walk mode, Hands Free Entry, and a new, sleek heat-moldable shell, all of which add up to a boot that can be skied hard while providing all-day comfort.

### KEY FEATURES

Après Mode 2.0, Hands Free Entry, fully heat-moldable

FLEX RATING:	120
LAST WIDTH (MM):	103
WEIGHT (G):	1900
SHELL MATERIAL:	TPU
CUFF MATERIAL:	PP
LINER:	Cushfit Pro
STRAP:	40mm Velcro
OUTSOLE:	GripWalk
SIZE RANGE:	24.5-30.5

## BFC 100 HEAT

The all-new BFC 100 HEAT maxes out the comfort meter with its 103mm last, sleek heat-moldable shell, improved Après Mode walk mode, and Bluetooth-controlled heated Therm-ic liner. High-tech, easy to get into, and built for comfort, this medium-flexing boot is the ticket for skiers looking for the ultimate in warmth and convenience.

### KEY FEATURES

Après Mode 2.0, Hands Free Entry, fully heat-moldable, Therm-ic heated liner with Bluetooth control

FLEX RATING:	100
LAST WIDTH (MM):	103
WEIGHT (G):	2050
SHELL MATERIAL:	TPU
CUFF MATERIAL:	PP
LINER:	Cushfit Therm-ic Bluetooth heated
STRAP:	40mm Velcro
OUTSOLE:	GripWalk
SIZE RANGE:	24.5-30.5

## BFC 100

The all-new, medium-flexing BFC 100 is ideal for skiers who prioritize comfort but still need a supportive boot that won't hold them back. A wide 103mm last, Cushfit liner, slimmed-down heat-moldable shell, and updated Après Mode for easy walking mean you'll be focused on your skiing, not your feet.

### KEY FEATURES

Après Mode 2.0, Hands Free Entry, fully heat-moldable

FLEX RATING:	100
LAST WIDTH (MM):	103
WEIGHT (G):	1950
SHELL MATERIAL:	TPU
CUFF MATERIAL:	PP
LINER:	Cushfit
STRAP:	40mm Velcro
OUTSOLE:	GripWalk
SIZE RANGE:	24.5-30.5

## BFC 90

For skiers who prioritize ease of use above all else when it comes to their boots, we offer the all-new BFC 90. An easy flex rating of 90 won't beat your legs up when the snow gets choppy, Hands Free Entry makes getting them on (and off) a cinch, and the Cushfit liner, low-profile heat-moldable shell, and roomy fit guarantee plenty of wiggle room for your toes.

### KEY FEATURES

Hands Free Entry, fully heat-moldable

FLEX RATING:	90

## ALL-NEW DISPATCH

From the skin track, to the camp site, to the second skin track, to the descent, you can count on the Dispatch pole to deliver comfortable, lightweight performance every step of the way. Constructed from durable 7075 aluminum, the Dispatch pole features our new articulating powder basket so that you can be equipped for whatever the day has to offer.

### KEY FEATURES

Grip - Freetour Grip w/ Emergency Release Strap

GRIP:	Freetour
SHAFT:	18mm 7075 Aluminum
BASKET:	Articulating 2.0 Powder
SIZES (CM):	Adjustable: 115, 120, 125, 130
COLORS:	Brown

## FREERIDE FLIPJAW

Forged out of tough 7075 aluminum and featuring K2's proprietary Flipjaw locking mechanism, the Freeride Flipjaw seamlessly transitions from early-morning skin tracks to afternoon resort laps. Ditch those featherweight touring poles for something that is equally at home on the skin track and the chairlift.

### KEY FEATURES

Flipjaw Adjustment Mechanism

GRIP:	Freeride Dual Injection
SHAFT:	Adjustable 7075 Aluminum
BASKET:	70mm Freeride
SIZES (CM):	Adjustable: 100-120, 110-135
COLORS:	Purple, Gray

## FREERIDE 18

With a comfy dual injection rubber grip and a bombproof 18mm diameter aluminum shaft, the Freeride 18 is built to last. Listen, you can get some crazy bells and whistles on poles these days, all you really need is a comfy grip paired with durable aluminum. Keep things sturdy and simple - drop in with the Freeride 18.

### KEY FEATURES

Velcro Adjustable Strap

GRIP:	Freeride Dual Injection
SHAFT:	18mm 7075 Aluminum
BASKET:	70mm Freeride + 95mm Powder
SIZES (CM):	110, 115, 120, 125, 130
COLORS:	Gold, Green

POLE

## FREERIDE 16

With a comfy grip and lightweight 16mm aluminum shaft, the Freeride 16 is built with female skiers in mind. Whether you're rallying pow stashes far from the lift or shoving off for another park lap, reach for the reliable Freeride 16 and let the good times roll. Available in shorter lengths for smaller skiers.

### KEY FEATURES

Velcro Adjustable Strap

GRIP:	Freeride Dual Injection
SHAFT:	16mm Aluminum
BASKET:	70mm Freeride
SIZES (CM):	95, 100, 105, 110, 115, 120
COLORS:	Sea Foam

## POWER CARBON

All carbon ski poles are basically the same, right? Wrong. Take a look at the lightweight Power Carbon - with a slick pole strap adjustment system and ultra-comfy Ripcord grip, you'll be wondering what exactly you've been wrapping your fingers around all these years. You're picky about your skis, boots, and goggles - why not be just as discerning when it comes to your poles?

**COLORS:** Black, Military Green  
**SIZES (CM):** 175, 195  
**MATERIAL:** 600D ripstop nylon with PE backing, padded tarpaulin lining, TPU-coated bottom  
**FEATURES:** reinforced carry handles, luggage tag window, holds 2 pairs of skis

## SINGLE PADDED SKI BAG

**COLORS:** Black, Military Green  
**SIZES (CM):** 175, 195  
**MATERIAL:** 600D ripstop nylon with PE backing, padded tarpaulin lining, TPU-coated bottom  
**FEATURES:** reinforced carry handles, luggage tag window, holds 1 pair of skis

## BOOT LOCKER

**COLORS:** Black, Military Green

**VOLUME (L):** 38

**MATERIAL:** 600D ripstop nylon with PE backing, padded tarpaulin lining, TPU-coated bottom

**FEATURES:** boot compartment with drainage, helmet compartment, goggle compartment, external storage pocket

## BOOT BAG

**COLORS:** Black, Military Green

**VOLUME (L):** 35

**MATERIAL:** 600D ripstop nylon with PE backing, rigid tarpaulin floor, TPU-coated bottom

**FEATURES:** 2 external storage pockets, removable shoulder strap

## BACKPACK

**COLORS:** Black, Military Green

**VOLUME (L):** 30

**MATERIAL:** 600D ripstop nylon with PE backing, TPU-coated top and bottom

**FEATURES:** padded laptop sleeve, padded back panel, multi-function organizer pocket, zip-away water bottle holder, external bungee storage, internal mesh pocket under lid, bike light clip, compression straps

HATS & APPAREL

### CHAIN LOGO FLEECE

A classic, with some new color-ups. The classic K2 chain logo runs the sleeve and we chose to keep the rest clean.

SADDLE NAVY BLACK

### LOUD & PROUD T-SHIRT

Clean, simple, loud and proud. K2 Logo centered on the chest.

BLACK HEATHER GREY WHITE

### 5 PANEL HAT

Cover your head, protect you from the sun, hide that bedhead, any so much more. The classic 5-Panel hat comes in two colors so you can swap back and forth every day.

BLACK SADDLE

### OLD SCHOOL BEANIE

Clean branding wrapping the brain. The K2 brand

RWB BLACK AND WHITE SADDLE

### CHAIN LOGO SWEATPANT

For the #certifiedchillers - these things are soft, warm, and COZY. The perfect pre-shred, post-shred, and couch-shred mates. Comfortable at all times, that's a promise.

BLACK

### LOUD AND PROUD HOODIE

Work from home has never been so cozy. A classic K2 stamp allows you to represent your favorite brand day-in-day-out.

HEATHER GREY MAROON BLACK

### KNIT CUFF BEANIE

The daily driver. K2 branding atop a dock-style cuff beanie. Looks good with everything, all the time.

SADDLE BLACK MAROON HEATHER GREY

**SKI TECH**

**ROCKER**

Once thought of as a powder-specific feature, K2 pioneered the use of rocker on all-mountain and piste skis, with the rest of the ski industry following in our footsteps. Today, almost all of our skis are built with rocker, with the height and length optimized on each model for maximum performance and enjoyment.

**SPEED ROCKER** - Short, low rise in the tip with camber throughout and a flat tail for quick turn initiation, precise steering, and maximum stability on groomed snow.

**POWDER ROCKER** - High and long rise in the tip, low camber underfoot, and a medium-height, long rise in the tail to maximize float in soft snow.

**POWDER TWIN ROCKER** - High and long rise in both the tip and tail for maximum float in soft snow.

**ALL-TERRAIN ROCKER** - Gradual rise in the tip for great versatility in all conditions, with a low, short rise in the tail for added control in variable snow.

**ALL-TERRAIN TWIN ROCKER** - gradual, extended rise in the tip and tail for added versatility and control in all conditions.

**CATCH FREE ROCKER** - Effortless turn initiation at slow to moderate speeds thanks to a medium-height, gradual rise in the tip and a low, gradual rise in the tail.

**CORES**

K2 uses a variety of wood species in our cores to fine-tune the performance characteristics of each ski.

**ASPEN**

Lightweight and resilient. Great all-around core material.

**FIR**

Energetic, tough, dense wood that absorbs impacts well.

**BALSA**

Ultra light and responsive, balsa is used in the core of our lightest touring ski, the Wayback 80.

**PAULOWNIA**

Lively, flexible wood with excellent strength-to-weight ratio.

**MAPLE**

Dense hardwood with excellent power transfer and stability.

**DARK MATTER DAMPING**

A polymeric damper sandwiched between two layers of high-modulus carbon strategically placed along the ski edge to eliminate high-frequency vibrations, providing drastically increased edge grip at high speeds.

**POWERWALL**

Power transfer to the ski's edges is dramatically enhanced with oversized ABS sidewalls that are laminated and pocketed within the wood core in the midbody of the ski.

**TITANAL I-BEAM**

Titanal runs tip to tail along the center of the ski, optimally shaped for stability and precision through the entire turn.

**TI<sup>2</sup> I-BEAM**

Built with 100% more metal than our proven Titanal I-Beam construction, Ti<sup>2</sup> I-Beam adds an additional sheet of metal on top of the ski core, providing the ultimate in stability, dampness, and precision when hitting top speeds on groomed snow.

**CARBON I-BEAM**

Full-length unidirectional carbon running from tip to tail, providing increased accuracy and energy along the entire length of the ski with a lighter, livelier feel than our Titanal I-Beam.

**TORSION CONTROL DESIGN**

Designed to enhance stability and control in all snow types, Torsion Control Design combines a progressive torsional flex with a balanced and even longitudinal profile. Torsionally stiffest in the forebody and center of the ski, then relaxing throughout the tail, K2 skis with TCD are characterized by precise, accurate turn initiation and smooth, consistent turn release. TCD can be found on Mindbender and Mindbender Alliance skis, utilizing either Titanal Y-Beam or Spectral Braid construction.

**TITANAL Y-BEAM**

TCD-optimized shape, placing Titanal directly over the edges in the forebody of the ski for powerful and consistent turn entry in variable and off-piste conditions. Underfoot, the Titanal spans the full width of the ski for maximum power transfer and control. In the tail, the Titanal narrows, tapering to allow the ski to break free on the back end of the turn while still remaining supportive.

**SPECTRAL BRAID (MINDBENDER AND MINDBENDER W COLLECTIONS)**

Another implementation of K2's Torsion Control Design, patented Spectral Braid is a first-of-its-kind variable-angle fiber reinforcement that allows for precision-tuned torsion and flex by altering the fiber orientation along the length of the ski. Lively, energetic, and composed, skis with K2's Spectral Braid have stability and control in spades while remaining extremely maneuverable.

**SLANTWALL**

Adding a 30-degree angle to the sidewall in K2's Hybritech construction, Slantwall increases a ski's agility and responsiveness while maintaining accuracy and power.

**TITANAL**

**HEX-BEAM**

Moves mass (titanal) away from the mounting points toward the tip and tail of the ski resulting in increased dampness and directional stability while maintaining power transfer in steep and deep terrain.

**VIBRADET**

Energy absorption under foot. Reduces vibration between the ski/skier interface which enhances suspension and control.

**STEADFAST BASE**

Glide Better, Longer. The Steadfast base requires 30% less energy to produce and retain wax 9 times longer than a high end sintered base. The improved wax adhesion also prevents skins from pulling wax from the base.

**UNI DIRECTIONAL FLAX**

Weight-conscious Adds composure to the ski allowing it to track more predictably in varied terrain.

**SPECTRAL**

**SPECTRAL BRAID (RECKONER COLLECTION)**

K2's Spectral Braid makes another appearance in select models in the Reckoner collection. In this iteration, the tighter fiber angles are found in the midbody of the ski, with more open angles in the tip and tail. This allows for more playfulness and forgiveness in the ski's extremities while maintaining a stable and powerful feel underfoot.

**DOUBLE BARREL**

Dense fir core over the edges for power and impact resistance bonded with a lighter aspen center core for a lively, energetic feel.

**CARBON BOOST**

Longitudinal carbon stringers laid on top of the core for added pop and rebound.

**T3 CONSTRUCTION**

Titanal Touring Technology is based on the premise that going downhill is the priority. As with our high-end piste and freeride skis, we've incorporated Titanal laminates into the construction of our award-winning Wayback and Talkback skis. The weight of our touring skis speaks for itself, and we'll let the smile on your face at the bottom of the run speak to their downhill performance.

**Ti SPYNE**

Titanal laminate specifically developed for the Wayback and Talkback collections to increase predictability, stability, and damping on lightweight touring ski constructions.

**CARBON OVERDRIVE**

Unidirectional carbon fiber integrated into the layups of our Wayback and Talkback touring skis to keep them light and responsive.

**SNOPHOBIC TOPSHEET**

Hydrophobic snow-shedding topsheet material that helps prevent snow buildup.

**CORRECT FLEX**

A proprietary process involving custom core profiling combined with a composite insert recessed within the top of the core in the midbody of the ski that ensures consistent flex characteristics across all lengths of a given model of ski.

**TRIAxIAL BRAID**

Patented process that interlocks strands of fiberglass around a milled wood core for pronounced torsional strength while retaining the superior flex patterns inherent in a wooden ski.

**METAL LAMINATE**

Metal laminate construction, denoted by "Ti" in a ski's model name, uses a custom-shaped sheet of Titanal in the ski's layup to provide a damp, precise, and accurate feel.

**HYBRITECH**

Sidewall construction underfoot blended with a cap construction in the tip and tail. The sidewall section gives the ski accuracy, power, and edge grip, while the cap construction regions reduce swing weight.

**DURACAP**

A molding process that envelops the core and internal materials with the top layer of the ski. Duracap skis are generally lighter and more forgiving than skis utilizing other construction methods.

**TWINTeCH**

A durable, full sidewall construction providing great edge feel and performance with added topsheet resistance to impact damage.

<p><b>XCOMP</b></p>	<p>POWERED BY <b>MARKER</b></p> <p><b>GRIP WALK</b></p>	<p>XCOMP 16 - Premium construction and technology, including magnesium components for precise steering and control. XCOMP dampening technology eliminates fast, hard impacts and keeps the boot perfectly centered.</p>

**SHELLS****POWERLITE SHELL**

K2's highest-performance shell design, utilizing shell walls of varying thicknesses and four different types of TPU to provide the ultimate combination of light weight and responsiveness.

**POWERLITE TOUR SHELL**

Bootfitter Friendly. Completely heat moldable. Eco-Friendly Pebax Upper Cuff and Shell. Consistent flex across a wide range of temperatures.

**LINERS****BOA TOURFIT LINER**

BOA liner increases adjustability and even hold across the entire foot. Features stiffer foam with asymmetric tongue for added power and energy transmission. Completely heat moldable with pre-molded ankle pocket.

**TOURFIT LT**

Lightweight construction that offers same performance features in the pro model. Stiffer foam with asymmetric tongue for added power and energy transmission. Completely heat moldable with pre molded ankle pocket

**TOURFIT**

Lightweight, hard charging construction inspired by the Lux Fit Tour liners. Pre molded ankle bumps for added fit and fully heat moldable with asymmetric tongue.

**POWERFIT PRO**

Pre-molded and lasted with Ultralon heat-moldable foam. Featuring stiffer foam and a stiff, asymmetric tongue for added power and energy transmission, pre-molded ankle pockets, and a high-density power collar.

**PRECISIONFIT PRO**

Pre-molded and lasted with Ultralon heat-moldable foam. Featuring an asymmetric tongue, pre-molded ankle pockets, and a high-density power collar for a firm-but-comfortable performance fit.

**POWERFIT PRO TOUR**

Pre-molded and lasted with Ultralon heat-moldable foam. Featuring stiffer foam and a stiff, asymmetric tongue for added power and energy transmission, pre-molded ankle pockets, and a high-density power collar. Includes a tour notch at the back of the ankle for increased comfort and range of motion while hiking and skinning.

**PRECISIONFIT PRO TOUR**

Pre-molded and lasted with Ultralon heat-moldable foam. Features an asymmetric tongue, high-density power collar, and a tour notch at the back of the ankle for increased comfort and range of motion while hiking and skinning.

**LUXFIT PRO**

Pre-molded and lasted with Ultralon heat-moldable foam. Features medium-density foam, pre-molded ankle pockets, and a medium-density collar, providing an ideal blend of performance and comfort.

**LUXFIT PRO TOUR**

Pre-molded and lasted with Ultralon heat-moldable foam. Features medium-density foam, pre-molded ankle pockets, and a medium-density collar, providing an ideal blend of performance and comfort. Includes a tour notch at the back of the ankle for increased comfort and range of motion while hiking and skinning.

**CUSHFIT**

Lasted with a blend of open-cell and EVA foam for an extremely comfortable, warm, and supportive fit.

**CUSHFIT PRO**

Maintains the renowned comfort of the original Cushfit liner, but with a notable increase in support and performance thanks to the use of Ultralon foam, similar to what is used in our Powerfit Pro and Precisionfit Pro liners.

**CUSHFIT COMFORT**

Same great fit and out-of-the-box feel as our classic Cushfit liner, but with additional foam in key areas for increased comfort and compliance.

**CUSHFIT JR**

A scaled-down version of our adult Cushfit liner built for our youth boots.

**FEATURES****PEBAX**

Lightweight, eco-friendly material used in the cuff of select boot models for energetic and consistent flex across a wide range of temperatures.

**FASTFIT INSTEP**

Softer TPU material is used in the instep area of select models' shells for quick and easy entry and exit.

**HANDS FREE ENTRY**

Dual material overlap for hassle-free entry and exit.

**ENERGY INTERLOCK**

A rivet-free technology that integrates the cuff and shell, putting less stress on the boot's lower shell and producing a smooth, progressive flex.

**POWERFUSE SPYNE**

A co-injected Y-shaped support in the rear of the boot that adds strength and power to the Energy Interlock in order to maximize fore/aft flex efficiency and lateral stiffness, providing enhanced responsiveness and energy transfer to the ski.

**CUFF ALIGNMENT INDEX**

Single-sided alignment system for +/- 1 degree of lateral cuff adjustment.

**DUAL CUFF ALIGNMENT INDEX**

Dual-sided alignment system for +/- 2 degrees of lateral cuff adjustment.

**FULLY HEAT-MOLDABLE**

Both the boot's shell and cuff are capable of being heat-molded to a variety of foot shapes for a true custom fit.

**WOMEN'S-SPECIFIC LAST**

A lower cuff height, lower-volume shell, and narrower heel to accommodate women's lower leg and foot shapes.

**WOMEN'S ADJUSTABLE CUFF**

Allows for quick adjustment of the cuff opening to accommodate a variety of lower leg shapes.

**APRÈS MODE 2.0**

A new and improved walk mode offering a massive 50-degree range of motion. A lever on the back of the boot unlocks the upper cuff from the lower shell, allowing for increased comfort and convenience when walking from the car to the lift.

**POWERLOCK SPYNE**

A performance-oriented walk mode designed for ski touring that offers a 50-degree range of motion. When in ski mode, Powerlock Spyne provides a powerful and secure connection for uncompromised downhill performance.

**INTEGRATED TECH FITTINGS**

Tech fittings in the toe and heel are fully integrated into the shell injection, allowing for compatibility with both tech bindings and alpine DIN bindings.

**FRICTION FREE CUFF PIVOT**

An easy-hinging cuff pivot designed to provide minimal resistance while in walk mode.

**GRIPWALK OUTSOLES**

Removable and interchangeable rockered soles designed to work with Marker's GripWalk binding system for better grip and comfort while walking, standing, and hiking.

**REPLACEABLE OUTSOLES**

Dual-injected TPU for secure footing, direct power transfer to the ski, and increased wear resistance.

**CANTABLE OUTSOLES**

Shims can easily be placed underneath the outsoles to cant the boots for a customized fit.

**NAVICULAR PUNCH**

A strategic bump built into the boot mold to alleviate pressure commonly experienced during ankle flexion.

**ASYMMETRICAL TOE BOX**

Fits the natural curvature of your toes for added comfort and to ensure a proper fit.

**POWER WEDGE**

A removable spoiler that fits between the liner and the back of the boot cuff that allows for adjustment of the boot's forward lean angle, ranging from 12 to 14 degrees.

**THERM-IC BLUETOOTH HEATED LINER**

Control your Therm-ic heated boot liners using the free Therm-ic Heat Control app on your smartphone. Available for iPhone and Android devices.

**SWITCHBACK BUCKLE**

Buckles lock in the forward position when touring to increase ROM. Toe buckle flipped on toebox for increased clearance in variable terrain. Magnesium buckles and wire bails for additional weight savings.

**DYNAFIT TECH FITTING**

Dynafit tech fittings in the toe and heel are fully integrated into the shell injection.

**VIBRAM OUTSOLE**

Designed with adventure in mind. Superior grip and durability. K2 exclusive tread pattern. 9523 iso DIN.

**HONEYCOMB BOOTBOARD**

Stay Warmer, Longer. Traps heat and insulates like a down jacket. Retains heat 15% better than traditional bootboard. Boot-fitter friendly

**POWERLOCK 2.0 WALK MECHANISM**

Improved walk mechanism with locking lever, 9-15 degrees of forward lean adjustability and 60 degrees ROM.

## SHELLS

### REVOLVER

Revolver Shell, offers the same fit and feel as the Raichle boots of years past, updated to withstand the rigors of today. Precise, snug, and proven, this 99mm last shell has become the definitive freestyle boot of the modern era.

### REVOLVER PLUS

The Revolver Plus Shell takes the same 99mm last and opens up the toe box for a roomier feel out of the box. The Pillar Shell uses the original 3-piece design and adds replaceable soles for extended longevity and increased traction.

### METHOD

The Method Shell adds much needed depth to the FL3X line. Designed for those with a wider foot, the Method shell incorporates a higher volume fit and a 102mm last.

### DIVERGE TOUR

The Diverge Tour Shell offers a smooth stride and articulated purchase in any situation. Walk farther and more comfortably than ever before. Featuring a higher back cuff and lightweight Grilamid™ plastic, this construction will take you anywhere.

## LINERS

### INTUITION PRO TOUR WRAP

Slip-on the Intuition Pro Tour Wrap and get ready to motor on up the skin track. Crafted out of Intuition® Foam, and featuring a tour notch and lace-up system, the Intuition Pro Tour Wrap offers the added comfort and performance your boot is missing.

### INTUITION PRO WRAP

Slip into the Intuition Pro Wrap, and experience unmatched ankle retention and pressure-free performance. Crafted out of Intuition® Foam, the Intuition Pro Wrap offers the added comfort and performance your boot is missing.

### INTUITION WRAP

The Intuition Wrap Liner's laminates are specifically engineered to be our lightest weight liner for increased maneuverability while maintaining it's warmth and custom moldable fit right out of the box.

### INTUITION PRO TOUR TONGUE

With a Tour Flex Notch, removable external J-Bars, and lacing system, the Intuition Pro Tour Tongue makes walking a blister-free experience in an enveloping snug fit, while giving you the performance you need to send it on the downhill.

### INTUITION PRO TONGUE

Crafted out of Intuition® Foam, the Intuition Pro Tongue Liner's laminate is specifically engineered to provide energy transfer to the shell while maintaining warmth in a custom, moldable fit. Slip-on the Intuition Pro Tongue liner and feel the power of the highest performing liner that we've ever created.

### INTUITION TONGUE

The Intuition Tongue Liner's laminates use multi-layered construction in a traditional tongue liner, designed to provide targeted comfort and performance in a familiar way.

# 3 PIECE BOOT TECH

## FEATURES

### RIBBED TONGUE

100% Ribbed tongue enables smoother, more natural linear flex from your shin to your toe. The tongue bends like a flexible straw, never bottoming out while providing smooth rebound. No more shin bang!

### EASY ON/OFF

The front of the shell opens a full 90° to slide your foot in and out with ease in all temperatures. Like putting on slippers!

### MOLDABLE

Utilizing the QuickFit™ System, all FL3X boots – shells included – can be molded to the exact needs of your foot. Not all feet are the same; and with FL3X, we pride ourselves on creating boots that allow a personalized, 1-to-1 fit experience.

### ADJUSTABLE FLEX

The boot's flex is rated on a simple scale of 4-12 (12=stiffest). Change a boot's flex by simply switching the tongue. (Competitor's boots require permanent cutting.)

### INFINITE PIVOT

Unlike traditional designs, the rear cuff never bottoms out. It pivots infinitely forward with your calf for less shell distortion, no shin pain and more control.

### CUSTOMIZABLE

All parts are sold separately for unlimited personalization and repair using a standard phillips head screwdriver.

### LADDER BUCKLE

The ladder buckle features an intuitive, easy to remember, macro-size adjustment, plus a micro-twist for fine adjustment with a light, easy-to-handle aluminum lever.

### FORWARD LEAN & CUFF ALIGNMENT

Tool-less forward angle adjustment. Original & Soul shells: 2mm or 4mm. Easy, precise lateral angle adjustment.

Revolver & Revolver Plus shells: 12mm.

### WOMEN'S CUFF

The women's cuff is anatomically shaped to match a female's specific calf shape for increased comfort and control.

### SHOCK ABSORBER BOOT BOARD

Soft rubber layer in the sole of the shell absorbs vibrations, impact and shock for a smooth ride.

### WIDETRACK BUCKLE

Durable aluminum levers with a minimalistic lightweight design. This adjustment mechanism is engineered to increase precision and durability while maintaining on-the-fly, single-handed micro adjustment.

### 45 DEGREE HEEL LOCK

Keep heels where they belong. Placing the middle buckle at an optimal 45 degree angle creates a solid lock for the heel to stay put when pressuring the tips and tails of the skis.

### GRIPWALK OUTSOLE

Designed for a better purchase on unstable & slippery terrain. The convex shape and ribbed tread add both comfort & grip for getting from house to hill to peak! Sold separately. Available for Revolver Plus and Method models.

# 3 PIECE BOOT TECH

# 3 PIECE BOOT TECH

## FEATURES CONT.

### TECH FITTINGS

Compatible with all pin-tech bindings, the in-molded tech fittings open up a new world of possibilities for FL3X Boots. One boot - any objective.

### MID GRIP

Whether you are climbing grated stairs or scrambling on top of a mountain, a dual material or single material midgrip gives you the confidence to stay on your feet.

### TOUR HOOK

Whether you are climbing grated stairs or scrambling on top of a mountain, a dual material or single material midgrip gives you the confidence to stay on your feet.

### WALK MODE

Flip the lever up to ascend with ease. And when it's time to send it, flip the lever down, lock the cuff in place, and push into the fluid, progressive flex you've come to expect from FL3X. Works great for après bar sessions too.

### DUAL MATERIAL OUTSOLES

No slipping getting in-between you and the ground. A firm TPU and a softer material combat wear and keep your feet underneath you on any surface.

### POWER WRAP

An additional layer of ergonomically shaped EVA is wrapped around the outside of the upper liner to increase energy transfer and horsepower to the shell.

### J-BAR

An additional j-shaped piece of foam is inserted internally on both sides of the ankle area to dramatically increase ankle hold down, to keep your feet perfectly in place for precise control.

### POWER WEDGE

Dial in your forward lean angle with this removable velcro spoiler.

### WIDE TOE

A thinner foam is used in the front of the liner to increase space without sacrificing control for people with wider feet or who prefer a little more toe room.

### INTUITION

All boot liners are built using authentic Intuition™ closed cell foam. It is body heat activated to mold 100% to your feet and shells during use, or can be instantly heat molded by a shop in minutes for a light, warm and super comfortable fit.

### WOMEN'S LINER

The women's cuff is anatomically shaped to match a female's specific calf shape for increased comfort and control.

CONSTRUCTION

**FREETOUR GRIP**

The Freetour Grip features an adjustable strap with an emergency release mechanism designed to release in the event of an accident or substantial impact. The Freetour grip also features a utility hook for convenient adjustment of risers or buckles.

**CARBON WEB**

External carbon strands are precisely laminated onto the carbon shaft, creating K2's lightest-weight, most durable, and stiffest ski pole.

**COMPOSITE CONSTRUCTION**

Full composite construction for a great combination of weight, durability, and affordability.

**ALUMINUM**

High-strength aircraft-grade aluminum for a seamless, durable ski pole shaft.

GRIP

**RIPCORD GRIP SYSTEM**

Safety-releasable strap mechanism integrated into the top of the grip. Unique, lightweight grip design eliminates all excess material. Slim, neoprene-padded, right/left specific straps for comfort and ease of entry. Push-button hinging grip top allows for easy strap adjustment and removes the need for buckles and velcro, creating our most comfortable and streamlined strap ever.

**UTILITY HOOK**

Stubborn boot buckles, heel risers, and walk mode levers are no match for the utility hook grip. Flip your pole over and use the notch on the front of the grip to flip, clip, pull, and buckle up your gear on the fly.

ADJUSTMENT

**LOCKJAW 6000 ADJUSTMENT MECHANISM**

Completely redesigned with a 6000-series aluminum lever and a body that utilizes Teflon bushings to optimize clamp force with minimal lever pressure. The minimalist design is 25% lighter than its plastic equivalent and is the most durable non-slip adjustment mechanism available.

**LOCKJAW ADJUSTMENT MECHANISM**

Refined over several generations, the tried-and-true Lockjaw system continues to define the standard for reliable, durable length adjustment mechanisms. Simple and durable, the Lockjaw is the workhorse of K2's adjustable pole collection.

**FLIPJAW ADJUSTMENT MECHANISM**

Length adjustment mechanism connecting a thinner upper shaft with a larger-diameter, more durable lower shaft.

**COLLAPSIBLE POLE TECHNOLOGY**

Collapsible for easy storage.

GENERAL

**ALL-SEASON KIT**

Change up the tips and baskets of your poles without any tools to set them up for summertime backcountry exploration.

**NESTING BASKETS**

Notches in the baskets to couple the pair of poles for easy carry or storage.

**BACKUP PROBE**

Screw the lower pole segments together to create a backup probe ranging to 200cm in length.

**POWDER BASKET**

Powder basket with a 95mm diameter for float in deep snow. Smooth-flexing to conform to harder terrain on skin tracks and traverses.

**ARTICULATING 2.0 POWDER BASKET**

The 95mm ball-and-socket articulating basket features 50 degrees of unhindered movement allowing the basket to effortlessly match the snow's surface.

# HELMET TECH

# HELMET TECH

## CONSTRUCTION

### MIPS

MIPS is a brain protection system integrated into select K2 helmet models that can offer increased protection in falls where the head experiences rotational forces from contacting the snow or other objects.

### IN-MOLD

In-Mold is K2's premium construction for ultra-lightweight performance and features an EPS liner that is molded directly to a lightweight polycarbonate shell. The result is a construction so light, you'll forget you're wearing a helmet.

### HARD-SHELL

Hard-Shell helmets are built to last and will look good no matter how many trips they make in and out of your gear bag. Hard-Shell helmets protect you from impact thanks to lightweight EPS foam bonded to a durable, injection-molded ABS shell.

### HYBRID

This unique construction features the best of both In-Mold and Hard-Shell constructions. The primary In-Mold construction makes the helmet incredibly light, while the secondary Hard-Shell upper allows for increased durability and the implementation of our advanced Active Matrix Venting.

MIPS BRAIN PROTECTION SYSTEM

HYBRID CONSTRUCTION

IN-MOLD CONSTRUCTION

PASSIVE CHANNEL VENTING

## VENTILATION SYSTEMS

### PASSIVE CHANNEL

Channels on the inside surface of the EPS liner direct airflow between your head and the helmet, removing moisture and excess heat for all-day comfort.

### ACTIVE MATRIX

Climate control at the flip of a switch. Active Matrix venting allows the user to easily regulate the airflow of the helmet's vent system.

### DUAL ACTIVE MATRIX

User-regulated Active Matrix venting combined with integrated Passive Channel venting.

ACTIVE MATRIX VENTING

CONVERTIBLE FULL WRAP LINER

FULL WRAP LINER

TECH FORM FULL WRAP LINER

## LINER SYSTEMS

### FULL WRAP

A comfortable, washable, full-coverage, breathable liner design that wicks moisture to prevent overheating and seamlessly integrates K2's fit and audio systems.

### CONVERTIBLE FULL WRAP

Same coverage as our Full Wrap liner, but can be easily removed, leaving the fit system and minimal padding to accommodate a thin beanie under the helmet or for maximum ventilation on warm days.

### TECH FORM FULL WRAP

Compression-formed, precision-fit liner with removable ear pads and neck roll for a convertible, customizable fit.

## FIT SYSTEMS

### K2DIALED

The K2dialed fit system creates a custom-fitting helmet for any and all head shapes. An ergonomically-shaped, three-point adjustable interface maximizes fit and customization with the twist of a dial, allowing for easy fit adjustments on the fly.

### 360 K2DIALED

The 360 K2dialed fit system is an evolution of the K2dialed fit system, delivering unparalleled comfort for your head. An intricate web design provides 360 degrees of even pressure distribution for a secure fit that is easily adjusted with the twist of a dial.

### BOA®

All the benefits of the 360 K2dialed Fit System with the precision and quality that you have come to expect from Boa® Technologies.

BOA® FIT SYSTEM

360 K2DIALED FIT SYSTEM

BASELINE AUDIO

BIKE CERTIFIED

## AUDIO

### AFTERMARKET BLUETOOTH SPEAKER COMPATIBILITY

All K2 helmets are now compatible with Outdoor Tech® Bluetooth audio systems, as well as other aftermarket audio options.

### BASELINE AUDIO SYSTEM

Pre-installed audio kit with a low-profile speaker that easily connects to your mobile device. The on-cord remote puts control of your talk and tunes right at your fingertips.

## GENERAL

### BIKE CERTIFIED

Conforms to United States and European safety standards for bicycle use.

### MAGNA SNAP

Magnetic retention clip that easily flips up and over your goggle strap for a secure hold that you don't have to fumble for.

### REMOVABLE EAR PADS

Ability to easily remove ear pads for reduced bulk, while still keeping the helmet's fit system in place.

### REMOVABLE HEADLAMP CLIPS

Customized fit for tool-free, on-the-go versatility for early-morning or after-dark missions.

### POWFLY HELMET COVER

Waterproof/breathable cover for the Route helmet that provides added protection against the elements.
