FISCHERSPORTS.COM

#LIVETOSKI

We take skiing seriously. Both Alpine and Nordic skiing. Our devotion, commitment, and passion for skiing are what drives us. This passion and dedication have fostered a culture of great product innovation. It is hardwired in us. Our vision as a brand is to be the athlete's number one choice.

We see it as our calling to enable new heights of individual performance and unforgettable moments with innovative, user-friendly products. By doing so, we believe we will enable more people to find and share this passion, because to us skiing is not a lifestyle. It's life.

SKIING IS NOT A LIFESTYLE. **IT'S LIFE.**

[FISCHERSPORTS.COM](https://www.fischersports.com)

THE CHOICE IS YOURS

We design our skis and boots to meet your exact needs as a skier. Every Fischer product has specific features and technology to make your skiing exhilarating and enjoyable. It's easy to find the right gear for the skiing that you do.

Fischer offers three distinct performance collections of Alpine skis, boots and bindings. Whatever you need, want and love in Alpine skis and equipment, Fischer makes it easy to find.

The entire final product offer should be taken from the respective country price lists. Colors and technical specifications in the catalog may deviate from the original. Rights reserved to unannounced changes, mistakes, and typographical errors. © October 2022.

CRAFTED TO DISCOVER MORE. THE NEW TOUR SERIES

Have you ever wanted your touring skis to offer more downhill performance? As skiers first, we have. The new Transalp ski makes discovery of nature more fun also when turning the tips towards the valley, with no weight sacrifice.

The completely new geometry and construction with Shaped Ti and hand selected and ultralight Paulownia wood core takes ski touring to a new level. One focused on skiing rather than the effort. Built in Europe with attention to environmental impact.

SKIING IS NOT A LIFESTYLE. IT'S LIFE.

RC4

THE HOME OF HIGH PERFORMANCE

The RC4 boot line offers all-day control and power transfer for ambitious skiers seeking to reach the next level. RC4 ski boots are available in three different last widths that have been perfected with FISCHER Scan-Fit® data to allow every passionate skier to find the perfect boot. Innovative performance features to choose from include BOA® Fit System, ZipFit® Innerboot, CARBONFUSED Cuff, Adjustable Forward Lean, and Floating Entry flap. If you want to level up your skiing, there is no way around the new RC4 powerhouse.

SKIING IS NOT A LIFESTYLE. IT'S LIFE.

JUNIOR

FOR THE STARS OF TOMORROW.

From beginners making their first turns, to young racers already ripping through the gates, all the way to the next generation of freeriders and ski tourers – the new Fischer Junior Boot Collection offers the perfect choice for any skier. The boots are specially crafted to match the anatomic and performance needs of young skiers. An optimized Junior last provides an optimal fit, new Junior aluminum buckles are convenient and simple to use, and brand-new Junior liners ensure comfort and warm feet. Now nothing stands in the way of a perfect day on the mountain and the juniors taking their skills to the next level.

SKIING IS NOT A LIFESTYLE. IT'S LIFE.

CONSTRUCTION / CORES

AIR POWER

Ski core with less density. The reduced ski weight means easier handling and less energetic skiing.

SANDWICH CONSTRUCTION

Laminated construction with a wooden core and sidewalls to support the edges for highest stability, strength and durability.

SANDWICH SIDEWALL CONSTRUCTION

Wood core combined with ABS sidewalls in a classic Sandwich Construction for balanced flex and perfect rebound.

SIDEWALL CONSTRUCTION

Sidewall Construction to support the edges for highest stability, strength and durability.

PAULOWNIA WOODCORE

Ultralight wood used in ski making. Used specially for touring skis - either with cap or sandwich design.

BEECH POPLAR WOODCORE

For optimum stability and optimal power transfer to the edge.

TECHNOLOGIES

DIAGOCARBON / FIBER

Innovative diagonal positioning of a carbon / glass fiber grid for excellent torsional stability with maximum power and stability in turns.

AIR CARBON TI

Wood Core with double Titanium shell, reinforced with Air Carbon. Perfect edge grip and extremely smooth running as a result.

POWER TI

Titanium improved construction for a better edge grip.

CARBON TECH

Special network of carbon fibres with exceptional torsion properties and a balanced stiffness pattern at the same time.

FIBER TECH

Special glass fibre network with harmonious bending properties. The ski stands out through excellent turning action.

DIAGOWRAP

Wood core has a carbon fiber wrap for extremely high torsional stiffness with minimal weight.

AIR CARBON TI 0.8

Wood Core with double Titanium shell, reinforced with Air Carbon. Sure and precise edge grip and extremely smooth running as a result.

AIR TEC

On the one hand, the milled structure makes the core 25 % lighter and, on the other hand maintains the outstanding ski performance.

AIR TEC TI

The weight of the wood core is reduced by 25%, without losing flex or torsional stability. This is possible because of the special milling pattern. Improved stability by titanium reinforcement.

SHAPED TI

Matching the thickness and shape of this high-strength alloy to the performance targets and geometry of a ski allows optimal grip and stability with a smoother ride.

CARBON STRINGERS

Special Carbon Stringers ensure that weight is kept sensationally low with balanced flex and an optimized weight-torsion ratio.

ROCKER

The shorter contact length of the ski ensures that turn initiation is easier and requires less effort. Five different types: All Mountain ROCKER, Freeski ROCKER, Tour ROCKER, On Piste ROCKER, Hybrid ROCKER.

CARBON / FIBER BRIDGE

Extremely strong and light carbon fiber/fiberglass in the binding area oriented at 90° greatly enhances edge grip for high levels of smoothness and stability.

RADICAL TRIPLE RADIUS

This latest development of the Triple Radius shape enables an even easier turn initiation. Power transfer and control throughout the entire turn are also improved.

TRIPLE RADIUS

The Triple Radius shape enables better control and power transfer throughout the entire turn.

RACE SIDEWALL

New manufacturing process alleviates the need for servicing the ski's sidewalls, making edge tuning much easier.

FLEX CUT

The Flex-Cut at the binding area optimized the flex of the ski according to the target group.

HOLE SKI TECHNOLOGY

Lower mass inertia moment thanks to less weight in the ski's tip and tail for improved oscillation behavior, perfectly smooth running and better turning and control.

PLATES

ALLRIDE

Newest Powerrail variation for improved power transfer. Special features: tool-free adjustment, suitable for rental.

SLR PRO

New, two-part system solution with minimum weight. For perfect power transfer.

M-TRACK

A new type of plate construction that yields an optimal stance for a smooth, balanced flex, and more confidence and security at speed.

M/O-PLATE JUNIOR

Our new junior race plate guarantees high performance and efficient power transfer. The result is an ideal flex and maximum speed for smooth, aggressive turns.

TWIN POWERRAIL

New two-part Powerrail system with reduced weight and better power transfer.

MULTIFLEX

Optimised flex with free flex action, best possible piste contact, direct power transfer and straight boot position.

M-PLATE

Newly developed plate from the World Cup, matched to the whole ski / plate / binding package.

JUNIOR RAIL SYSTEM

New, two-part system solution with the lowest possible weight. For an optimized power transmission for our juniors.

BASE AND EDGE

WORLD CUP TUNING

Edges and base are given an extremely precise World Cup level finish on the most modern grinding line in the world.

WORLD CUP BASE

Original World Cup base with inserts to protect the ski from burning out through heat build-up.

SINTERED BASES

Sintered bases have exceptional waxing properties and a very long service life.

BINDINGS

| | | |
|--|---|---|
| <p>FULL DIAGONAL TOE</p>  <p>The 180° release reacts in almost all fall directions. Protects ligaments and tendons – particularly in the knee.</p> | <p>DIAGONAL HEEL</p>  <p>This binding heel has a release arc of 150°. Lower release pressure, particularly on forward twisting falls.</p> | <p>FRP</p>  <p>Four rollers and glide inserts optimise flexibility and release characteristics of the binding.</p> |
| <p>FREEFLEX PRO</p>  <p>Freely-suspended heel section permits unrestricted ski flexing for optimum ski control.</p> | <p>HORIZONTAL RELEASE HEEL</p>  <p>Horizontal release mechanism to reduce the release force in a wide variety of fall situations. The risk of injury is reduced due to the lower strain on the knees.</p> | <p>AFS</p>  <p>Weight-optimised adapter with which the new Anti Friction Slider ensures you have the usual safety. Better stability as a result - both horizontally and vertically.</p> |

RENT

| | | |
|--|---|---|
| <p>RENTALTRACK</p>  <p>Performance plate with full Rental features including Colour Code for fast adjustment and barcode field.</p> | <p>ONE TOUCH</p>  <p>Adjustable in a single movement of the hand – binding setting according to XTR Colour Size Concept. Practical when renting out skis.</p> | <p>XTR INFO</p>  <p>Shell size and sole length information prominently displayed for fast and easy differentiation in the boot rack. Ideal for use in rental fleets.</p> |
| <p>ENFORCED BASE & EDGES</p>  <p>Reinforced edges and thicker base enable the ski to be used longer even if it has to endure frequent grinding.</p> | <p>CERADUR</p>  <p>Fibreglass material that protects the ski core like a shell. The result is a ski that is technically as new even after frequent use.</p> | <p>ANTI CHIPPING</p>  <p>Improved bonding of the top foil and laminate through a special rubber insert absorbs the forces exerted on the surface when skis are crossed. For a significant reduction of foil chipping.</p> |
| <p>ADJUSTABLE CATCHES</p>  <p>Regardless of a skier's calf volume, the cuff catches can be quickly and easily adjusted without tools to guarantee a perfect fit.</p> | <p>SANITIZED LINER XTR</p>  <p>Antibacterial treated inner lining stops odor and kills bacteria. Ideal for use in rental fleets.</p> | |

| | | |
|--|---|---|
| <h3>TOUR BOOT TECH</h3> | | |
| <p>BOA® M3 FIT SYSTEM</p>  <p>Enables uncomplicated, fast and millimetre-precise setting and adjustment of the boot. Easy to use with just one hand for quick boot entry and exit.</p> | <p>FULL RUBBER SOLE</p>  <p>The entire sole of the ski boot is made of durable rubber to give confidence inspiring grip even on the most technical climbs over rock and ice.</p> | <p>DOUBLE LOCK SKI/WALK</p>  <p>A spring-loaded double locking mechanism ensures that the cuff and shell remain securely connected. The additional hook prevents unintentional opening of the system in all conditions.</p> |
| <p>POWER BUCKLE SYSTEM</p>  <p>Adjustable closing construction for a roomy fit on the uphill and a compact fit with impressive force transmission on the downhill.</p> | <p>QUICK FIX STRAP CLOSURE</p>  <p>This power strap closure mechanism allows the strap to be easily opened and, especially in icy conditions, foregoing the need to fully rethread the tail of the strap.</p> | <p>PEBAX® RNEW</p>  <p>Pebax® Rnew is a polyamide material produced largely with castor plant oil and is therefore renewable and sustainable. Great performance with a very low overall weight and high stiffness. Bootfitters are strongly advised to punch this material as it does not lend itself to grinding!</p> |
| <p>CARBONFUSED CUFF-TOUR</p>  <p>Pebax® Rnew cuff reinforced with carbon fiber for increased stability and stiffer flex. The best-of-the-best for skiers who demand ultimate performance.</p> | <p>ADJUSTABLE FORWARD LEAN-TOUR</p>  <p>A flippable plate located between the cuff and the Double Lock Ski/Walk mechanism on all Transalp touring boots. Enables a quick adjustment of the forward lean inclination to either 16° or 13°.</p> | <p>CARBON-SOLE INSERT</p>  <p>A built in carbon/Aramid plate under the rubber sole maximizes torsional stiffness and direct power transfer to the ski. Inspires utmost confidence when traversing in steep or icy conditions.</p> |
| <h3>RC4 LV / MV / HV BOOT TECH</h3> | | |
| <p>GRIPWALK® SOLE</p>  <p>The GripWalk® soles (ISO 23223) offer end users the ultimate in natural walking comfort, safety across slippery terrain, and ski performance. Adult and Children's norm soles are 100% compatible across all boots in the FISCHER range.</p> | <p>PHATT MAXX</p>  <p>50mm wide power strap with enhance power and pressure transfer for exceptional precision handling.</p> | <p>VACUUM</p>  <p>Shells are moldable at 80°C through VACUUM process. Dynamic plastic that improves skiing experience, plus greater temperature stability and 15% less weight.</p> |
| <p>CARBONFUSED CUFF-ALPINE</p>  <p>TPU cuff reinforced with carbon fiber for increased stability and stiffer flex. The best-of-the-best for skiers who demand ultimate performance.</p> | <p>BOA® H+i1 FIT SYSTEM</p>  <p>Dialed in. Locked in. Confident. This new high power and high strength BOA® system was developed specifically for use on alpine boots to promote shell wrapping and pressure distribution. Precision fit with on-the-fly tightening and loosening. Releasable cartridge and bayonet system prevents breakages through impact.</p> | <p>PRIMALOFT®</p>  <p>PrimaLoft® Insulation is featured in all WS liners providing additional warmth, breathability, and lightness - even when wet! Animals are protected as the synthetic insulation is vegan.</p> |
| <p>FISCHER SCAN-FIT® LAST</p>  <p>Next generation of last built leveraging hundreds of thousands of customer foot scans obtained through the FISCHER Scan-Fit® App. Guarantees an anatomic fit that provides increased power transfer and control.</p> | <p>RC4 ZIPFIT® INNERBOOTS</p>  <p>It is a „boot“ that goes inside the ski boot shell! Co-branded product focused on delivery durable, uncompromising performance with dynamic cork composite fit adjustment. Merino lined neoprene toe box ensures feet stay warm. Automatically adds at least 10 flex points of stiffness.</p> | <p>FLOATING ENTRY FLAP</p>  <p>The floating entry mechanism guarantees a very easy entry and exit to the boot at all conditions. It doesn't matter if the material is cold or if you have a high arch, the instep flap will slide out of the way.</p> |
| <p>WOMEN'S SPECIFIC COLLAR</p>  <p>Unique feature on all WS models which is intentionally cut lower and shaped for „typical“ female lower leg anatomy.</p> | <p>iFZ LINER</p>  <p>iFZ (individual fit zone) Velcro outer material in the heel and ankle area of all PERFORMANCE fit liners. Allows Velcro fitting pads to be attached to reduce pressure points or increase heel hold.</p> | <p>ADJUSTABLE FORWARD LEAN - RC4 LV</p>  <p>By flipping the asymmetrical backbone piece and sliding the integrated cuff spoiler, all RC4 LV boots can be quickly adjusted between the default 17° and more upright 14° setting.</p> |
| <h3>PODIUM RACE BOOT TECH</h3> | | |
| <p>RACE CODE</p>  <p>The RACE CODE label highlights products designed and tested by the Fischer racing department, guaranteeing the highest quality standard as demanded by World Cup racers.</p> | <p>LOW-TOLERANCE RACE CUFF</p>  <p>This cuff geometry built into Podium RD and LT boots provides ultimate support towards the rear to handle heavy racing force. Force transmission to the ski is maximized while offering additional forward clearance of the lower shell.</p> | <p>RD20 RACE CANTING</p>  <p>The latest generation of race canting is designed to reduce the tolerance between cuff and shell of the boot, allowing for maximum power transfer and overall control. Available in 2 and 3 point asymmetrical versions to enable cuff alignment tuning. Please see Spare Part item: U78321 / U78322</p> |
| <p>LACE LINER</p>  <p>Liner with laces preinstalled provides a compact fit and more support in the shell and for the foot, especially over the instep and across the heel.</p> | <p>TPU SHELL & CUFF</p>  <p>Thermoshape polyurethane (TPU) material is the benchmark and industry standard for top race products, as it offers superior ski boot suspension compared to polyamid or polypropylene mixtures. TPU makes for a phenomenal ski experience due to the rebound and energy transfer characteristics.</p> | <p>PHATT MAXX RACE</p>  <p>55mm wide power strap for enhanced force transmission and pressure distribution. Outfitted with velcro backing supporting 1mm and 3mm shims to ensure the perfect hold across shell and liner tongue.</p> |
| <h3>JUNIOR / KIDS BOOT TECH</h3> | | |
| <p>KIDS FRIENDLY</p>  <p>Fischer ONE & TWO boots feature a highly-durable waterproof-gaiter that opens wide for easy entry. Zipper puller and velcro strap are simple to use, even with gloves!</p> | <p>GRIPWALK® SOLE</p>  <p>The GripWalk® soles (ISO 23223) offer end users the ultimate in natural walking comfort, safety across slippery terrain, and ski performance. This is achieved through pronounced rounded shape and convex rib profile built with co-polymer rubber material.</p> | <p>JUNIOR ALUMINUM BUCKLES</p>  <p>Aluminum buckles developed specifically for junior ski boots to provide optimal closure and parent-free handling.</p> |
| <p>JUNIOR ALUMINIUM MICRO-BUCKLES</p>  <p>Micro-adjustable aluminum buckles for junior ski boots to allow precise adjustment of the closure and the best possible performance for the next generation of Fischer race athletes.</p> | <p>JUNIOR LINER</p>  <p>Specifically developed liner for the anatomy of young skiers that provides comfort and warmth for the whole ski day. Available also in a Ranger Junior version featuring a Motion-Area above the heel for better mobility when walking.</p> | <p>ORIGINAL DYNAFIT® INSERTS</p>  <p>Guaranteed compatibility to all Tech-bindings and high wear resistance. Verified through longtime use and experience.</p> |

RANGER /RANGER ONE BOOT TECH

iFZ RANGER PERFORMANCE LINER

Integrated Fit Zones enable the Velcro pads to be adapted as needed. The use of high-density materials plus a stiffened tongue and elastic toe box allow for enhanced ski performance.

INTEGRATED SKI/WALK BUCKLE

The ski/walk lever is integrated into the upper cuff buckle, enabling incredibly easy handling and assurance that it will not be switched unintentionally. Eliminates annoying fumbling on the back of the boot.

VACUUM

Shells are moldable at 80°C through VACUUM process. Dynamic plastic that improves skiing experience, plus greater temperature stability and 15% less weight.

VIBRAM®

Vibram® rubber used in GripWalk® soles provide the ultimate in quality, durability, comfort, and traction.

DOUBLE HOOK CATCHES

Sleek new cuff catch profile for Ranger MV boots featuring a double hook. Ensures that buckle stays in place when walking with cuff open.

WOMEN'S SPECIFIC COLLAR

Unique feature on all WS models which is intentionally cut lower and shaped for „typical“ female lower leg anatomy.

FLOATING ENTRY FLAP

The floating entry mechanism guarantees a very easy entry and exit to the boot at all conditions. It doesn't matter if the material is cold or if you have a high arch, the instep flap will slide out of the way.

PRIMALOFT®

PrimaLoft® Insulation is featured in all WS liners providing additional warmth, breathability, and lightness - even when wet! Animals are protected as the synthetic insulation is vegan.

ORIGINAL DYNAFIT® INSERT

Guaranteed compatibility to all Tech-bindings and high wear resistance. Verified through longtime use and experience.
